French Intrigue Linked to America

Americans had a role in the break up of the largest populist party in the world.

EXCLUSIVE TO THE SPOTLIGHT

BY PAUL MOTIER

PARIS, France—Jean-Marie Le Pen, president of France's National Front (NF), has announced that his staff is conducting an investigation into the recent mutiny led by Bruno Megret, formerly his deputy.

The report, after the investigation is completed, will be available to the public. Party insiders tell The SPOTLIGHT unofficially that the report will implicate the instigators of the attempted coup, including certain Americans backed by the State Department.

Although the Megret insurgents have tried and failed to physically capture

JEAN-MARIE LE PEN
... Founder of National Front.

the largest populist party in the world. The NF takes about 20 percent of the vote at this time in French elections. It is estimated that the Megret group will take as much as one quarter of NF members and supporters, reducing the NF to 15 percent of the vote.

Although this is good news to the international establishment and to mainstream French politicians, such as President Jacques Chirac, all of the establishment parties are falling to

Cheap Russian Rifles Could Flood America

The White House has unveiled another weapon in its gun-grabbing arsenal: cheap imports.

EXCLUSIVE TO THE SPOTLIGHT

BY MIKE BLAIR

While the Clinton administration is doing everything within its power to keep what it considers to be dangerous firearms out of the reach of law-abiding Americans, it appears that this image is not exactly what it seems.

Proving there is no limit to the administration's hypocrisy, the Bureau of Alcohol, Tobacco and Firearms (BATF) has recently approved importing a variation of the Russian-designed AK-47 assault rifle to the United States. The import comes in the form of a cheap sniper-type rifle originating from the Kalashnikov small arms complex in Russia. The manufacturer is named for the famous gun's designer, Mikhail Timofeyevich Kalashnikov.

The guns are available through Kalashnikov-USA-Ltd., which has been set up in Port St. Lucie, Fla. It also has a West Coast distribution outlet.

accurate telescope sight-equipped rifles falling into the hands of young school students. Last year students were responsible for several multiple-shooting incidents.

The importation of the cheap Russian sniper-type rifles caused critics to question the Clinton administration's motivations.

Are they trying to encourage such random and sensational multiple-shootings to further their agenda of banning all guns from the American public?

"How can an administration that is pushing gun safety locks to protect children from firearms at the same time allow the importation into America of cheap rifles intended for sniping purposes?" one East Coast gun dealer asked.

The Russian rifle is selling at an advertised "one time only introductory sale" price of \$495. This is one-third the cost of an American-made tactical sniper rifle at the low end of the American-made rifle pricing scale.

The Russian rifle is made on the basic AK frame in the standard 7.62

Americans had a role in the break up of the largest populist party in the world.

EXCLUSIVE TO THE SPOTLIGHT

BY PAUL MOTIER

PARIS, France—Jean-Marie Le Pen, president of France's National Front (NF), has announced that his staff is conducting an investigation into the recent mutiny led by Bruno Megret, formerly his deputy.

The report, after the investigation is completed, will be available to the public. Party insiders tell The SPOTLIGHT unofficially that the report will implicate the instigators of the attempted coup, including certain Americans backed by the State Department.

Although the Megret insurgents have tried and failed to physically capture control of party headquarters, and have demanded that Le Pen resign and turn over all party assets to them, Le Pen remains fully in control of the official National Front.

Le Pen created the NF literally from nothing and built it to the point that it is

JEAN-MARIE LE PEN
... Founder of National Front.

the largest populist party in the world. The NF takes about 20 percent of the vote at this time in French elections. It is estimated that the Megret group will take as much as one quarter of NF members and supporters, reducing the NF to 15 percent of the vote.

Although this is good news to the international establishment and to mainstream French politicians, such as President Jacques Chirac, all of the establishment parties are falling to pieces because of massive internal corruption. Thus, even with the anticipated 5 percent loss, the NF should continue gaining.

When the results of the ongoing investigation are known, they will be published in The SPOTLIGHT.

While the Clinton administration is doing everything within its power to keep what it considers to be dangerous firearms out of the reach of law-abiding Americans, it appears that this image is not exactly what it seems.

Proving there is no limit to the administration's hypocrisy, the Bureau of Alcohol, Tobacco and Firearms (BATF) has recently approved importing a variation of the Russian-designed AK-47 assault rifle to the United States. The import comes in the form of a cheap sniper-type rifle originating from the Kalashnikov small arms complex in Russia. The manufacturer is named for the famous gun's designer, Mikhail Timofeyevich Kalashnikov.

The guns are available through Kalashnikov-USA-Ltd., which has been set up in Port St. Lucie, Fla. It also has a West Coast distribution outlet.

This action comes at a time when the BATF, FBI and the Justice Department are supposedly concerned about highly

question the Clinton administration's motivations.

Are they trying to encourage such random and sensational multiple-shootings to further their agenda of banning all guns from the American public?

"How can an administration that is pushing gun safety locks to protect children from firearms at the same time allow the importation into America of cheap rifles intended for sniping purposes?" one East Coast gun dealer asked.

The Russian rifle is selling at an advertised "one time only introductory sale" price of \$495. This is one-third the cost of an American-made tactical sniper rifle at the low end of the American-made rifle pricing scale.

The Russian rifle is made on the basic AK frame in the standard 7.62 NATO or, as it is known more commonly in America, the .308 Winchester caliber, a far more powerful cartridge than

OUR CREED

The point of view of The SPOTLIGHT is best described as populist and nationalist.

You can trust The SPOTLIGHT to give you "the other side of the news"—to report on events which are vital to your welfare but which would otherwise be hushed up or distorted by the controlled press. We make no attempt to give you "both sides." We'll leave the Establishment side to your daily newspaper, TV and radio. Make up your own mind who is being honest with you: the Establishment media or The SPOTLIGHT.

OUR GUARANTEE

The SPOTLIGHT will always correct any meaningful error of fact.

White Fired Over Language

(A digest of significant news items that failed to appear in most of the nation's press.)

★ ★ ★
GET A MULTICULTURAL DICTIONARY. David Howard, a white public relations spokesman for Washington, D.C. Mayor Anthony M. Williams, has quit his job because of a great outcry from blacks that he used the word, "nigger." Howard tried to explain that the word he used—in regard to a

DAVID HOWARD
... Too literate.

financial matter—was "niggardly," meaning "very stingy" and has no connection to the word "nigger." The explanation fell on deaf black ears and Howard was forced to resign.

★ ★ ★
MUST BE GOOD FOR BUSINESS. Businessman Pat Robertson, who also poses as a Christian evangelist and an advocate of public morality, says that Clinton gave such a good State of the Union Address that he should be ex-

criminally confiscate computers suspected of containing so-called "hate propaganda." This is defined as any speaking or writing of facts which contradict the official account of "The Holocaust."

★ ★ ★
CAREFUL WHAT YOU SAY. When and if Al Gore runs for president in 2000, we probably won't see anyone stepping forward to chastise and/or censor our environmentalist vice president for the well-worn copy of his book, *Earth in the Balance*, found in the possession of the Unabomber, Ted Kaczynski. Kaczynski was the ecoterrorist who sent mail bombs to those he felt threatened the future of America. If the U.S. government were to fairly enforce their intent of punishing those who advance controversial subjects which might incite people to acts of violence or terrorism, then it's only fair that Gore should be properly disciplined for his offense. Perhaps someone will bring this to his attention when and if he decides to run.

★ ★ ★
ETHNIC CLEANSING. Genetic and biological weapons that are designed to kill specific ethnic or racial groups are not that far from reality according to a recent three-week-long conference on arms control held in Geneva, Switzerland. Dr. Vivienne Nathanson, the director of health policy research at the British Medical Association, told the press that genetic technology is already being used to improve weapons and that in the not-so-distant future, "the world faces the reality of genetically engineered

Civil Rights division, Bill Lann Lee, is serving without Senate approval. Despite the fact that Lee's nomination has been shot down twice already by the Senate Judiciary Committee, he is still on the job. Apparently Lee has been serving for the past year in violation of the Vacancies Act which specifies that "acting appointees may only serve 120 days."

★ ★ ★
LABOR QUOTAS. *The Wall Street Journal* reported that the Labor Department has requested any company doing business with the federal government be required to submit the name, age, sex and race of all employees. This has reportedly been planned in order to foster a more racially equitable approach to issuing government contracts. Critics of the policy point out that race isn't supposed to matter. Doesn't it serve government better to let the best person win?

★ ★ ★
DISCRIMINATION. A non-profit legal organization in California has sued the city of San Francisco for violating Proposition 209, which prohibits state and local governments from discriminating against any race or gender when awarding contracts. The lawsuit was brought on behalf of Tom Taber, who was denied a contract with the city because of his sex and the color of his skin: He is a white male. The city would have gotten away with it, were it not for the fact that in their rejection letter, they told Taber the contract he was competing for had been set up solely for women

fanciful—and fictitious—tale of growing up in Western-oppressed Guatemala. The anthropologist, who after exhaustive research proved her autobiography false, now has been vilified by peers and other cultural communists who claim accuracy is irrelevant when it comes to "emotionally authentic testimony from the oppressed." One professor responded in support of the truth, saying: "The Menchu controversy, like the Clinton controversy, reveals the depth of academic disregard for the truth in the postmodern era."

★ ★ ★
GULF WAR SYNDROME. In another casualty of the military's unwillingness to admit they might be wrong, an Air Force airman is now facing a possible court martial for refusing to get an anthrax vaccine. The SPOTLIGHT has reported on numerous occasions the possible link between several vaccines given to troops in 1991 and Gulf War Syndrome. Many critics of the vaccines say that these shots could even lead to cancer, lupus, chronic fatigue syndrome and infertility.

DAVID HOWARD

... Too literate.

financial matter—was “niggardly,” meaning “very stingy” and has no connection to the word “nigger.” The explanation fell on deaf black ears and Howard was forced to resign.

MUST BE GOOD FOR BUSINESS. Businessman Pat Robertson, who also poses as a Christian evangelist and an advocate of public morality, says that Clinton gave such a good State of the Union Address that he should be excused for his crimes and sins. Congress should get back to what it does so well, he thinks, like making laws, not wasting time trying to throw Clinton out of office.

“WE SCREWED UP—TOO BAD.” Four states have now passed laws that protect them from lawsuits as a result of Y2K computer-related problems. Legislatures in New York, California, Illinois and a number of other states are also introducing similar laws to protect state governments from claims for damages from the private sector as a result of computer errors.

EMPTY RHETORIC. To acquire immunity to eloquence is of the utmost importance to the citizens of a democracy.—Bertrand Russell, *Atlantic Monthly*, Oct. 1938.

NEXT STOP—USA. Legislators in British Columbia, Canada, have been tirelessly trying to pass criminal code restrictions on freedom of speech. Various proposals put forth include authorizing police to indis-

discipline people to acts of violence or terrorism, then it's only fair that Gore should be properly disciplined for his offense. Perhaps someone will bring this to his attention when and if he decides to run.

ETHNIC CLEANSING. Genetic and biological weapons that are designed to kill specific ethnic or racial groups are not that far from reality according to a recent three-week-long conference on arms control held in Geneva, Switzerland. Dr. Vivienne Nathanson, the director of health policy research at the British Medical Association, told the press that genetic technology is already being used to improve weapons and that in the not-so-distant future, “the world faces the reality of genetically engineered and possibly genetically targeted weapons.”

WHO'S PAYING THIS GUY? *Investor's Business Daily* reported that the current head of the Justice Department's

ter. Doesn't it serve government better to let the best person win?

DISCRIMINATION. A non-profit legal organization in California has sued the city of San Francisco for violating Proposition 209, which prohibits state and local governments from discriminating against any race or gender when awarding contracts. The lawsuit was brought on behalf of Tom Taber, who was denied a contract with the city because of his sex and the color of his skin: He is a white male. The city would have gotten away with it, were it not for the fact that in their rejection letter, they told Taber the contract he was competing for had been set up solely for women and minorities.

FICTIVE TALE. The SPOTLIGHT, Jan. 4, 1999, reported on the controversy over the book, *I, Rigoberta Menchu*, in which the author won a Nobel Prize for her

ton controversy, reveals the depth of academic disregard for the truth in the postmodern era.

GULF WAR SYNDROME. In another casualty of the military's unwillingness to admit they might be wrong, an Air Force airman is now facing a possible court martial for refusing to get an anthrax vaccine. The SPOTLIGHT has reported on numerous occasions the possible link between several vaccines given to troops in 1991 and Gulf War Syndrome. Many critics of the vaccines say that these shots could even lead to cancer, lupus, chronic fatigue syndrome and infertility.

BALLOT ACCESS. Florida used to have some of the toughest laws regarding third and independent party candidates' access on election ballots. However, under a new state law, candidates will have two options. They can either collect the same number of signatures as the two major parties' candidates or opt to pay a “qualifying fee” of 6 percent of the salary for the office being sought to get on the ballot.

YOU HAVE RIGHTS. A Court of Appeals in Washington state has ruled that persons must seek a “superior title” to homes purchased in IRS-seized property before dispossessing the previous residents. The former process involved purchasers obtaining an “unlawful detainee action,” which amounts to an expedited court order whereupon the sheriff is authorized to remove tenants. The process of getting a superior title to a house is reportedly a much more expensive and lengthy ordeal, and is hoped to make it more difficult for the unscrupulous to just kick residents out of their homes.

Personal . . . From the Editor

There is just so much on the Internet, how can The SPOTLIGHT compete? We can compete by bringing readers quality information that's hard to find. The vast majority of information in cyber space is trash. In order to help you spend your time more wisely we begin an Internet column in this issue of The SPOTLIGHT. It appears on page 10. Vince Ryan comments on the new column on page 16. Let us know what you think.

Our sovereignty is at risk. Two weeks ago we warned of the “Know Your Customer” plan that could make you neighborhood banker a spy. This week we expose the international agency behind that plan.

Another story delves into the behind-the-scenes race to become the next head of the World Trade Organization. The biggest advocate of free trade will more than likely get the seat and this will have a direct influence on American consumers, taxpayers and voters. See pages 20 and 21 for the details.

BATF Allows Russian Rifle Imports

(Continued from Page 1)

the AK-47's original 7.62x39 millimeter.

The .308 Winchester round goes back to after World War II when it was chosen as the standardized caliber for countries belonging to the NATO military alliance. Virtually every country in NATO maintains the .308 today as the standard caliber for all of their sophisticated sniper rifles.

More interesting about the AK-type import, known as the Saiga .308 Winchester Carbine, is the fact that the low price also includes what is identified as the Russian PSO-2 rifle scope. The scope is of 6 power magnification and

includes a range finder, usually associated with sniper or some "specialized" sort of highly-accurate rifle system, and a sturdy mounting bracket to attach it to the rifle.

Other accessories with the gun are two 8-round clip type magazines. This addition means that the rifle can in no way be passed off by either its distributors or the BATF as a legitimate hunting rifle, since in virtually every state semi-automatic big game hunting rifles are limited to five-round capacity.

Other interesting firearms being offered in the United States by Kalashnikov-USA-Ltd. include a 12-gauge, 3-

inch Magnum semi-automatic shotgun, also priced at \$495, which has a five-shot clip-type magazine and, as such, becomes virtually the only clip magazine semi-automatic shotgun sold in America.

In addition, a Saiga carbine in the AK-47 original 7.62x39 caliber and a Russian PSO 4 power magnification scope sight with electrically-illuminated cross hairs sells for a "special" price of only \$375.

For that particular gun, Kalashnikov-USA-Ltd, is also offering expanding hollow-point (outlawed for warfare by the Geneva Conventions) cartridges by the case of 1,000 rounds for only \$105.

By comparison, a box of 20 30-30 Winchester deer hunting cartridges, made in the United States, sells for about \$10 to \$13, depending upon the brand and retailer.

In order to appear more like American-style sporting rifles, the Saiga rifles have been equipped with hunting type stocks with high combs and cheek pieces made of beechwood.

Nevertheless, they are the basic AK-type Russian military rifles and the scope sights with which they are equipped can in not be considered

Illegal Aliens Imperil U.S. Neighborhoods

The number of illegal aliens entering the United States is skyrocketing.

EXCLUSIVE TO THE SPOTLIGHT

BY JAMES P. TUCKER JR.

The immigrant population is at an all-time high of 26.3 million and has increased by 33 percent since 1990, according to the Census Bureau.

According to other government sources, the number of illegal aliens entering the country is higher than ever because of NAFTA. Under NAFTA, trucks can cross the border from Mexico freely.

But the Border Patrol lacks the manpower to inspect all the trucks for safety, so the lives of Americans traveling the highways are endangered, since most of the trucks fail to meet minimum standards.

But in the few "spot checks" the Border Patrol conducts, it often finds illegal aliens hiding under the cargo being imported. Sometimes illegal aliens are the entire cargo—their payments to be smuggled across make them more valuable than tomatoes.

The cost to American taxpayers is high. According to the Census Bureau:

- The proportion of immigrant house-

holds receiving welfare is 30 percent to 50 percent higher than natives.

- The poverty rate for immigrants is 50 percent higher than that of natives. Immigrants account for one in seven persons living in poverty.

But America is paying a price much higher than money: The ease with which foreigners move into this country, both legally and illegally, threatens to strip the United States of its cultural identity, many experts within and without government warn, despite the pain of being called "racist" and "nativist."

South American countries are now moving toward "dual citizenship" for people who flee to the United States, thus blurring the lines of patriotism and loyalty.

Mexico has passed a law retaining citizenship for Mexicans who become U.S. citizens by taking an oath of loyalty to this country. Those "American citizens" remain voting, Mexican citizens.

Mexican politicians find it feasible to barnstorm on the American side of the border as if they were on home ground. They openly discuss establishing thousands of polling places in churches, consulates, Mexican-owned businesses and private homes in the United States.

Some countries, including Colombia

and Peru, have their citizens in the United States voting for electoral candidates "at home."

Dual citizenship strikes at the heart of patriotism. With the single exception of Israel, if an American applies for, and obtains, citizenship in another country, it is an automatic renunciation of U.S. citizenship.

For decades, the State Department has tried to confuse the issue regarding Israel by pointing out the "dual citizenship" of others.

For instance, the State Department said that if an American soldier stationed in Paris falls in love and marries a French girl, he automatically becomes a French citizen without forfeiting U.S. citizenship.

But that is a unilateral action by the French government. If the same soldier did not marry, but applied for and obtained French citizenship, he would lose his U.S. citizenship.

But an American citizen, if he qualifies, can apply for Israeli citizenship—a process that can take months—and remain an American citizen. The late terrorist from the Jewish Defense League, Maier Kahane, became an Israeli citizen, was elected to the Knesset, but returned to New York to vote.

While confusing so-called "new Americans" and native-born Americans about where their national loyalty lies serves the cause of world-government advocates—it guts the very soul of America.

President Clinton, a product of Bilderberg and the Trilateral Commission, joyfully reports that early in the next century the United States will be a "nation of minorities." American culture, derived from her European heritage, will be lost in a flood of Hispanics, Asians and blacks, who multiply faster. In fact, immigrant women produced 5.4 million children between 1990 and 1998, according to the Census Bureau.

Under the Constitution, anyone born on American soil is a citizen, even if the parents are illegal aliens.

While the Founding Fathers could hardly have anticipated today's dilemma, Mexican families cross the border illegally just in time to have babies and become parents of new American citizens—thus qualifying for permanent residence.

The warning comes from voices throughout the government: unless outraged Americans demand radical immigration reforms and effective border control, the time will come when they no longer recognize their country.

GOP Must Focus on Issues

Will Republican support for the impeachment and conviction of Bill Clinton hurt the party in future elections? Well, yes, if you believe what carefully selected pollsters and experts are telling the pro-Clinton media. But not really, if the Republicans can learn how to make the case against Clinton as well as how to make the case for other issues.

In a never-ending effort to find some way of frightening, blackmailing, intimidating or badgering Republicans out of their apparent determination to rid the White House of Clinton's presence, *The Washington Post* recently unleashed a front-page story arguing (the *Post's* stories nearly always argue) that GOP support for impeachment "threatens to inflict long-term political damage" on the party.

The argument was bolstered by a formidable array of numbers and poll results, as well as the rather more comprehensible comments of various numbers crunchers and pollsters. "We're getting boxed into a very narrow box, which is an anti-Clinton box," GOP pollster Jan van Lohuizen told the *Post*. "The only way to get over it is to get over [impeachment] and start talking

issues. We have to have something to say other than that Clinton is a bad guy, and right now we don't."

For some reason, Uncle Remus's story of Br'er Rabbit and the brier patch keeps coming to mind whenever you read the *Post* or other leftish newspapers on why the Republicans would be better off if they just forgot about impeaching Clinton. By begging not to be thrown into the brier patch, the rabbit finally manipulated the fox and the bear to throw him into it—his natural habitat, where predators couldn't get him. By advising Republicans to stop picking on the president, the media left are simply trying to manipulate the right into letting them remain in the political and moral brier patch that has made them invulnerable for decades.

Nevertheless, Ms. van Lohuizen does have a point, and even if it's the *Post* that brings it to our attention, it's still true. Indeed, it's a point I have made repeatedly during the last five years, when the right's obsession with the Clinton scandals started to displace far more substantive issues. Whitewater, Travelgate, the death of Vince Foster, Filegate, various sexual escapades and an almost endless list of allegations

about the Clinton Cabinet (among other scandals) have preoccupied conservatives and much of the conservative press ever since Clinton was elected. There may have been red meat in any or all of them, and at least some still raise questions that no one seems very eager to answer.

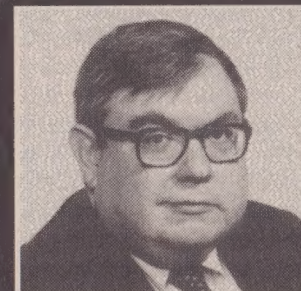

But the attention and energy that conservatives have given to them have had two major effects. In the first place, obsession with the dark underbelly of the Clinton presidency has served to smother attention to the worldview that Clinton represented and the policies that evolved from it. While the right did oppose Clinton on health care and homosexuals in the military, it has let him slide on quite a few other matters.

By 1996, the GOP presidential ticket sported two gentlemen who had supported their opponent on NAFTA, the World Trade Organization, immigration and intervention in Bosnia. Neither was willing to criticize him on affirmative action.

American conservatism, by its preoccupation with the Clinton scandals, had come to support Clinton on the core of his political program. Having abandoned or ignored their own positions and principles in moving closer to the president, the Republicans then complained that the president had stolen their ideas.

Second, obsession with scandal has demonstrably had very little effect. Clinton remains a highly popular figure. The very fact that experts can raise the question about the damage the GOP may have done itself by support-

SAY IT AGAIN SAM

By Sam Francis

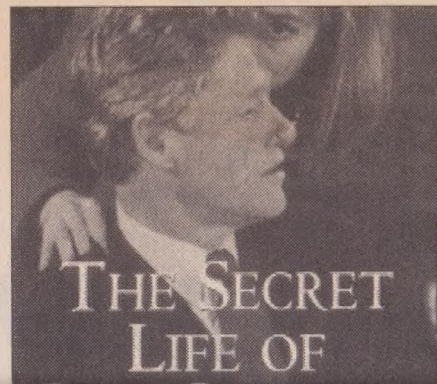

ing impeachment tells us something important: The conservative obsession with the Clinton scandals has had absolutely no impact whatsoever on public opinion; it has been a complete and total failure.

What the Republicans—and the American right in general—need to do is exactly what Ms. van Lohuizen advises: Start talking issues. That may be difficult for a party whose leaders have so forgotten the principles they started out with that they now don't remember what an issue is and would be terrified if they ran into one, but the Stupid Party needs to start learning.

If it can learn—simply by remembering what it once believed and was eager to profess—there should be no reason why cleansing the nation of Clinton's White House presence should harm it in future elections. The more they preach and practice their real principles and campaign on issues based on them, the more the public will understand why it is right and necessary for Bill Clinton to leave office.

midable array of numbers and pill results, as well as the rather more comprehensible comments of various numbers crunchers and pollsters. "We're getting boxed into a very narrow box, which is an anti-Clinton box," GOP pollster Jan van Lohuizen told the *Post*. "The only way to get over it is to get over [impeachment] and start talking

Post that brings it to our attention, it's still true. Indeed, it's a point I have made repeatedly during the last five years, when the right's obsession with the Clinton scandals started to displace far more substantive issues. Whitewater, Travelgate, the death of Vince Foster, Filegate, various sexual escapades and an almost endless list of allegations

ported their opponent on NAFTA, the World Trade Organization, immigration and intervention in Bosnia. Neither was willing to criticize him on affirmative action.

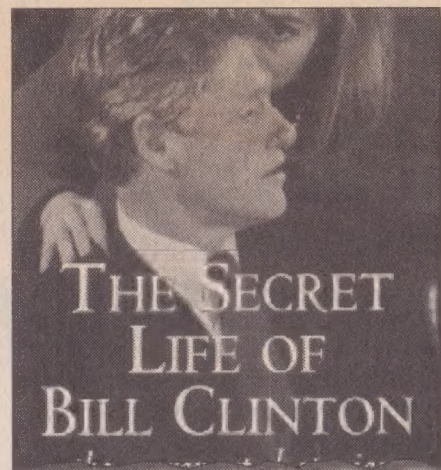

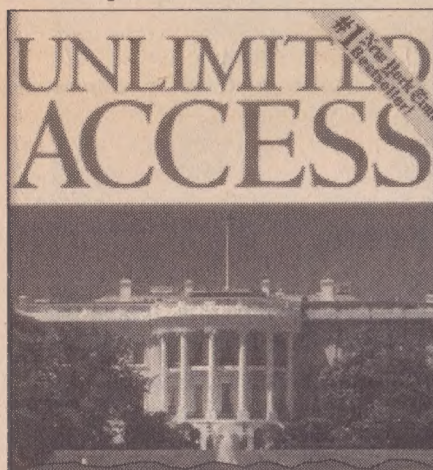

American conservatism, by its preoccupation with the Clinton scandals, had come to support Clinton on the core of his political program. Having abandoned or ignored their own positions and principles in moving closer to the president, the Republicans then complained that the president had stolen their ideas.

Second, obsession with scandal has demonstrably had very little effect. Clinton remains a highly popular figure. The very fact that experts can raise the question about the damage the GOP may have done itself by support-

is exactly what Ms. van Lohuizen advises: Start talking issues. That may be difficult for a party whose leaders have so forgotten the principles they started out with that they now don't remember what an issue is and would be terrified if they ran into one, but the Stupid Party needs to start learning.

If it can learn—simply by remembering what it once believed and was eager to profess—there should be no reason why cleansing the nation of Clinton's White House presence should harm it in future elections. The more they preach and practice their real principles and campaign on issues based on them, the more the public will understand why it is right and necessary for Bill Clinton to leave office.

States Are On Alert for Y2K

The Pentagon says it is ready for next year. Now governors are preparing.

EXCLUSIVE TO THE SPOTLIGHT

BY MIKE BLAIR

The United States and Canada are making military plans to deal with the arrival of the year 2000—the “New Millennium,” “Y2K” etc.

Detailed plans of the Pentagon about U.S. military measures are reported to be in place. Now individual state national guards are making preparations and coordinating with the military and the shadowy and all-powerful Federal Emergency Management Agency (FEMA).

Across the United States and Canada are reports, some reliable and others not, of disruptions that may occur when the calendar turns to Jan. 1, 2000. That

event was not accounted for in millions of computers and computerized systems, including super-sophisticated systems that control electrical power, communications, air traffic, freight handling etc.

Many in both countries fear a complete breakdown of the orderly operation of government and public services.

The SPOTLIGHT has received a report from the office of Washington Gov. Gary Locke (D), indicating the state will mobilize half of its ground troops on New Year's Eve “as a precaution against any civil disorder or breakdown in government services stemming from the computer ‘millennium bug.’”

So far, little has been outlined for the public about military preparations in America. It is well known that various agencies of government, including law enforcement and the military, are more

than aware of the situation.

The SPOTLIGHT has received information about the detailed plans of two state national guards to deal with any problems that may result from Y2K. These plans range from distributing goods and services to the maintenance of civil order. The states are Washington and Wisconsin.

The National Guard Bureau in Washington, D.C., is formulating plans for a mobilization test of all 480,000 members of the Guard in all states and U.S. territories. The project is code named COMEX/MEDEX. It includes contacting all national guardsmen without telephone, radio or television. The operation assumes that all communications have been interrupted.

If such a scenario occurs, the guard will be notified by alternative means throughout the nation.

GUARDSMEN READY

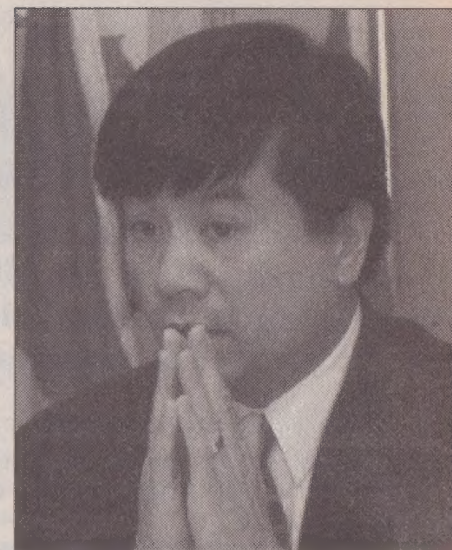

About 3,000 Army Guardsmen will be on duty across Washington state as the year 2000 starts, according to Maj. Gen. Gregory Barlow, the state's guard adjutant general.

“We don't want to be unprepared and we don't want to overreact,” Barlow said. “Readiness is our No. 1 priority.”

According to the report, the state Military Department, which includes the 8,600-member Army and Air National Guard and the 100-member state Emergency Management Department, an adjunct agency of the Federal Emergency Management Agency (FEMA), will be on duty in the state's 39 National Guard armories in the event they are needed by civil authorities.

Locke has established a special agency, the Year 2000 Office, headed by Chris Hedrick, to coordinate the activities of the state's various agencies.

Similar plans have been put in place

GARY LOCKE

... Will call out Guard.

litary plan that is being put in place. It will include at least 32,000 members of the Canadian Forces to deal with what the Canadians have dubbed *Operation Abacus*, with thousands more to be made available, if needed.

NORTHERN NEIGHBORS

Canadian military activities to counter any disruptions caused by Y2K will be directed under the nation's Emergencies Act, which replaced the Canadian War Measures Act in 1968.

The extraordinary powers reserved under the War Measures Act was invoked by socialist Canadian Prime Minister Pierre Trudeau on Oct. 16, 1970, to deal with the *Front de Liberation du Quebec*, a terrorist separatist group that had kidnapped British diplomat James Cross, who was later released, and a Canadian cabinet minister, Pierre Laporte, who was murdered.

That was the only time that the War Measures Act had ever been implemented with such sweeping powers, which amounted to virtual martial law during peacetime.

Whether the Emergencies Act will be

Canadian soldiers, serving as UN “peacekeepers” in Croatia, were asked to check a vehicle while searching for bodies in 1993. Next year, they may be asked to keep the peace in Canada if that country suffers disorder thanks to computer problems when the calendar turns to Jan. 1, 2000.

The Bank Runs Are Quietly

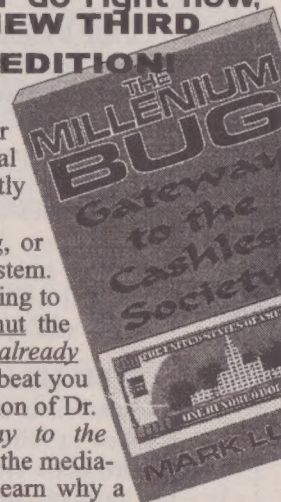

Canadian soldiers, serving as UN "peacekeepers" in Croatia, were asked to check a vehicle while searching for bodies in 1993. Next year, they may be asked to keep the peace in Canada if that country suffers disorder thanks to computer problems when the calendar turns to Jan. 1, 2000.

The Bank Runs Are Quietly Beginning . . . Are You Ready?

There are a few things you'd better do right now, or you could lose everything.

Did you know that in September, 1998 America's savings rate went negative for the first time since 1933? In layman's terms, that means people are taking their money out of the banks. Why? The Fed blames the global economic contraction. At the same time, they're quietly storing up currency for a much different problem . . .

The computer problem known as the millenium bug, or simply y2k, is going to take down the world financial system. Simply put, if *only 1% of all Americans* think it's not going to be safe when the millenium changes over they can shut the banks by pulling their money. *Quietly, people are already withdrawing their money from the system.* They want to beat you to the exits. What happens next? Read the new third edition of Dr. Mark Ludwig's book, *The Millenium Bug: Gateway to the Cashless Society?* to find out. In it, you'll find out about the media-generated scare which is already in the works. You'll learn why a

national emergency is inevitable once the financial panic gets under way, what tools the government has to deal with the problem, and what they'll likely do. Most importantly, learn what you can do to protect yourself!

THE COMING YEAR 2000 COMPUTER

To: An Open Letter To All Americans
From: Charles Phillips, National Chairman American
Center For Legislative Reform (ACLR)

I ask you, can we afford a President that is so wrapped up in his personal problems that he can not focus on the most serious catastrophe Americans have faced in the last five decades? That's right, not since the Great Depression, have we faced such a grave situation.

The problem in a nutshell: Computer programmers often used only two digits rather than the four to represent years; for example, 98 instead of 1998. As a result, many computer systems cannot distinguish between 2000 and 1900 and will malfunction without programming changes.

The Year 2000 Computer Crash, sometimes called the Millennium Bug or Y2K, is the most looming economic crisis this country has ever faced. The recession of the 1970's pales in comparison. Some contend the Y2K will be more catastrophic than either of the last two World Wars combined. Utility blackouts, rationing, food shortages, bank closings, and hyper-inflation could just be the beginning of the most trying time in Americas history.

MORE CLINTON SHENANIGANS. President Clinton has told us not to worry, saying "the government will not allow the YEAR 2000 problem to happen." Well, he also told us he never had an improper relationship with Monica! He was lying then. What makes you think he is not lying now?

The President is covering up the scope and depth of the looming Y2K crisis. In fact, even most members of Congress are hiding the severe extent to which the year 2000 computer problem could effect YOU & YOUR FAMILY.

President Clinton was warned as far back as 1996, when Senator Patrick Moynihan wrote to him, about the YEAR 2000 problem. He asked the President point blank —

"What preparations are being made to help Americans when THESE SERVICES COLLAPSE?"

- THE UTILITIES • THE WATER AND SEWAGE • TRANSPORTATION
- BANKS AND S & Ls • FEDERAL GOVERNMENT AGENCIES
- HOSPITALS, HEALTH EQUIPMENT • AIRLINES, CARS, TRAINS
- WALL STREET — STOCKS & BONDS, RETIREMENT FUNDS

Senator Moynihan went on to urge Mr. Clinton to give the YEAR 2000 problem the same priority as the Administration. But the President and Congress have been

Sen. Chris Dodd, of the Y2K Special Committee, after hearing testimony said, *"It's not if we are going to have a problem but how bad the problem will be."*

Your banking services, water, gas, electricity and FOOD Delivery... almost everything you depend upon daily is at high risk of failing. I wholeheartedly believe that it will take business and government—working together—a minimum of 18 months to find the FIX and longer still to physically get to and repair the major systems.

NIGHT LINE summation after 1 1/2 hours of documentation on Y2K —

Americas history.

MORE CLINTON SHENANIGANS. President Clinton has told us not to worry, saying "the government will not allow the YEAR 2000 problem to happen." Well, he also told us he never had an improper relationship with Monica! He was lying then. What makes you think he is not lying now?

The President is covering up the scope and depth of the looming Y2K crisis. In fact, even most members of Congress are hiding the severe extent to which the year 2000 computer problem could effect YOU & YOUR FAMILY.

President Clinton was warned as far back as 1996, when Senator Patrick Moynihan wrote to him, about the YEAR 2000 problem. He asked the President point blank —

"What preparations are being made to help Americans when THESE SERVICES COLLAPSE?"

- THE UTILITIES • THE WATER AND SEWAGE • TRANSPORTATION
- BANKS AND S & Ls • FEDERAL GOVERNMENT AGENCIES
- HOSPITALS, HEALTH EQUIPMENT • AIRLINES, CARS, TRAINS
- WALL STREET — STOCKS & BONDS, RETIREMENT FUNDS

Senator Moynihan went on to urge Mr. Clinton to give the YEAR 2000 problem the top priority in his Administration. But the President and Congress have been derelict in addressing the issue. The politicians in Washington are more concerned about embarrassing one another than fixing this dire problem. All the politicians care about are deal making, grand standing, and looking to make political capital out of the fact that Bill Clinton cannot tell the truth.

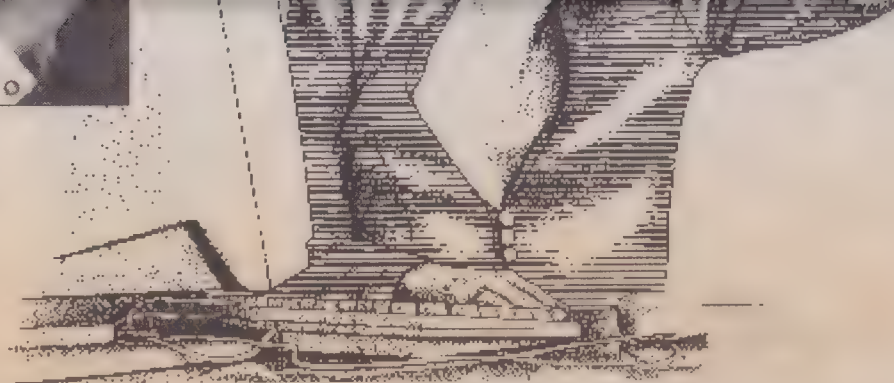

POLITICS AS USUAL. Washington is not going to take care of you and me over the next 18 months as the Y2K crisis builds to a crescendo. They are too far behind the curve. You and I must begin preparing to provide for our families. The next time a local politician, or a co-worker, or a neighbor tells you this is a bunch of hype. . . you had better think twice before believing them. The YEAR 2000 bug is NOT a scam.

Y2K IS FOR REAL. The American Bankers Association reported last month that private industry alone will spend over \$4 billion — that is a four with 9 zeros after it — tackling this problem. The heads of every major corporation in the world are scrambling to safeguard their companies from disaster.

Just think about it. The business community would not spend BILLIONS OF DOLLARS on a problem that is not FOR REAL. How would you like to be a CEO and have to explain to your stockholders, "we lost money this year and can't pay your dividends because we were trying to fix a computer problem that doesn't exist?"

You don't have to own a computer to be in trouble when the year 2000 approaches. There are 50 billion embedded computer chips in everything from toasters and kitchen appliances to cars and every machine you can think of today. These chips were mass-produced to have many applications. . . making them very inexpensive to produce.

The prevalent feature in nearly all computer chips is that they have a clock in them. It is this clock that will malfunction in the chip as the date rolls from 99 to 2000 without programming changes. Even though certain machinery, appliances, cars, planes and electrical plants may not need these computer "clocks" to operate—the glitch in the chip should shut their systems down anyway.

Your banking services, water, gas, electricity and FOOD Delivery. . . almost everything you depend upon daily is at high risk of failing. I wholeheartedly believe that it will take business and government—working together—a minimum of 18 months to find the FIX and longer still to physically get to and repair the major systems.

NIGHT LINE summation after 1 1/2 hours of documentation on Y2K —

"We are going to face a major problem. We just don't know how bad it will be."

I urge you and your family to take three critical steps.

1. BE READY TO FEED YOUR CHILDREN OR GRANDCHILDREN. Begin to earnestly prepare now for your family's safety and necessities. I have finally found a company that can deliver food, on time and within your family budget! I spent months approaching scores of companies, who all told me they could NOT guarantee delivery sooner than 10 months, some as long as one year, from the date of purchases. Shiloh Food Reserves has been able to help me, my family and friends of ACLR in just six to eight weeks. (The demand is high so don't wait, pick up the phone and order the food your family will need during this crisis. When others are scrambling six months from now. . . you'll be ready.)

2. BUILD AN EMERGENCY FUND. Plan to save money. Have gold and silver on hand. History has proven that these precious metals increase in value up to 4 or 5 times during a crisis. My organization has worked out a system with Renaissance Metal to put together a package that can help average people. You do not have to be wealthy to survive this looming catastrophe. But you do have to be PREPARED. You need to procure usable gold and silver that can be of benefit to you during the YEAR 2000 crisis. Call 877-979-1776 for information.

3. JOIN ACLR. I have put together a special two tape series designed to help you and your family. I will walk you through the necessary steps to prepare and protect your family during this trying time. This tape set and workbook is yours just for asking.

Stop Clinton's Power Grab

LIBERTY LOBBY RECOGNIZED THE dangers and unconstitutional nature of Executive Orders (EO) decades ago. Soon thereafter, members of the Board of Policy (BOP) voted against presidential power to legislate by Executive Order. This position hasn't changed, and a president like Bill Clinton shows just how important the separation of powers remains.

On Dec. 10, Clinton signed EO 13107, "Implementation of Human Rights Treaties." Remember, bombs were about to fall on Iraq and Clinton was facing an impeachment trial. Perhaps the media can be forgiven for not examining this order. After all, everyone is in favor of human rights. The problematic words are "implementation" and "treaties," not "human rights."

The EO created a federal "Interagency Working Group on Human Rights Treaties" for the purpose of "providing guidance, oversight and coordination with respect to questions concerning the adherence to and implementation of [UN] human rights obligations and related matters."

Worse still, the working group will focus on UN human rights treaties "to which the United States is now or may become a party in the future," i.e., treaties the Senate has refused to ratify.

WHAT'S IN IT?

Some of these treaties include:

- The International Covenant on Civil and Political Rights which is viewed in some circles as an attack on the First Amendment and criminal law. This treaty would set up a Human Rights Committee that would target sex discrimination among other things.

- The International Covenant on Economic, Social and Cultural Rights which critics say would force the United

need," Mrs. Schlafly says.

- The UN Convention on the Rights of the Child would usurp parental responsibility with UN authority. A child's "right" to "freedom of expression" would allow kids to download pornography from the Internet, watch Satanists' propaganda, listen to any type of music or watch any television program regardless of parental objection.

"While parents lost their right to set safe boundaries for their children, the state assumes full power to 'protect' the child and define the rules," says Berit Kjos, a researcher who has examined international influences on education.

"Likewise, if parents restrict their child's 'right to freedom of association' or their child's ambiguous rights to 'privacy' or 'conscience and religion,' the parent would break this law and face the potential loss of their child to the state's 'protection,'" she added.

- The UN Convention on the Elimination of all Forms of Discrimination Against Women would require Americans to "follow UN/feminist dictates about 'customs and practices,' 'social and cultural patterns of conduct of men and women,' 'family education' and even revision of textbooks," Mrs. Schlafly says.

- The Universal Declaration of Human Rights was signed in 1948, but implementation would be contrary to our Constitution. Articles 18 and 19 give world citizens "the right of thought, conscience and religion . . . [and] the right to freedom of opinion and expression" provided subjects think what the UN wants you to think.

For example, Article 29 says, "these rights and freedoms may in no case be exercised contrary to the purposes and principles of the United Nations."

ago. The Supreme Court ruled 5-4, in 1989, that burning the flag was protected under the First Amendment.

Rep. Randy "Duke" Cunningham (R-Calif.) is expected to introduce a bill banning the desecration of Old Glory. Already this year, at least two members of Congress have voiced support for the plan.

As the 106th Congress opened on Jan. 6, Reps. John Sweeney (R-N.Y.) and Jo Ann Emerson (R-Mo.) took to the floor in favor of the flag.

"Across our country, our citizens have voiced loud and clear that Congress must enact the constitutional amendment that restores that right to protect the flag," Sweeney said in his first floor speech. "Eighty-two percent of Americans support it, 49 states have passed resolutions calling for it, 310 House members responded in the 105th Congress to pass it and 61 senators cosponsored the Senate bill that came just a few votes shy of restoring the power to protect the flag that has been denied for the past nine years.

"The 106th Congress must follow through and make the Flag Protection Amendment a reality," he added.

Mrs. Emerson said protecting the flag is a matter of defending our heritage, not free speech.

"As you know, there have been several attempts to outlaw by statute the desecration of the flag," she added. "Both Congress and state legislatures have passed such measures in recent years, only to be overruled later by decisions of the Supreme Court . . .

"The most common objection to this kind of amendment is that it unduly infringes on the freedom of speech," Mrs. Emerson continued. "However, this objection disregards the fact that our freedoms are not practiced beyond

of act, something that goes well beyond the legitimate exercising of a right," she added. "It is a wholly disgraceful and unacceptable form of behavior, an affront to the proud heritage and tradition of America."

STOP THE INFLOW

California, and several other states in the southwest, are awash in illegal aliens. Now comes a federal lawmaker with a proposal that will toughen laws against smugglers who bring illegals across the border.

Rep. James Rogan (R-Calif.) has introduced a bill that would require "coyotes," those who smuggle aliens across the border, face stiffer sentences in federal court. Currently, there is an 18-month minimum for smuggling aliens.

"Every night along our 1,000-mile border with Mexico, hundreds of undocumented aliens are loaded into vans, trucks, car trunks and other concealed hiding spots," Rogan said. "They all hope that the few hundred dollars they paid will get them across the border. Often, it does not. For many, the story ends in robbery, violence, rape or worse.

The congressman has introduced the

Rights Treaties" for the purpose of providing guidance, oversight and coordination with respect to questions concerning the adherence to and implementation of [UN] human rights obligations and related matters."

Worse still, the working group will focus on UN human rights treaties "to which the United States is now or may become a party in the future," i.e., treaties the Senate has refused to ratify.

WHAT'S IN IT?

Some of these treaties include:

- The International Covenant on Civil and Political Rights which is viewed in some circles as an attack on the First Amendment and criminal law. This treaty would set up a Human Rights Committee that would target sex discrimination among other things.

- The International Covenant on Economic, Social and Cultural Rights which, critics say, would force the United States to adapt UN dictates for our laws. The Truman, Eisenhower, Kennedy, Johnson, Nixon, Ford, Reagan and Bush administrations all rejected the treaty. Columnist Phyllis Schlafly says it was rejected because it refused to recognize the right of an individual to own property.

"This UN treaty would bind us . . . 'to ensure an equitable distribution of world food supplies in relation to

state's 'protection,'" she added.

- The UN Convention on the Elimination of all Forms of Discrimination Against Women would require Americans to "follow UN/feminist dictates about 'customs and practices,' 'social and cultural patterns of conduct of men and women,' 'family education' and even revision of textbooks," Mrs. Schlafly says.

- The Universal Declaration of Human Rights was signed in 1948, but implementation would be contrary to our Constitution. Articles 18 and 19 give world citizens "the right of thought, conscience and religion . . . [and] the right to freedom of opinion and expression" provided subjects think what the UN wants you to think.

For example, Article 29 says, "these rights and freedoms may in no case be exercised contrary to the purposes and principles of the United Nations."

So if you as an American wish to exercise your sacred right to speak out against the UN or mistaken beliefs accepted as fact concerning history, you are in violation of Article 29 of the Universal Declaration of Human Rights.

That seems to be the way the Clinton administration wants. But you can change that. Last year, Clinton tried to force EO 13083 down the throats of Americans. It would have broadened the scope of federalism. Many considered it a blatant power grab. You started making phone calls and writing letters. Soon thereafter, congressmen introduced resolutions against the measure and the White House rescinded it (SPOTLIGHT Sept. 7 and others).

Let the White House, Congress, editors of local newspapers and talk show hosts know how you feel about Executive Orders in general and EO 13107 in particular.

FLAG BURNERS BEWARE

A few in Congress are waking up to the will of the American people. For example, Liberty Lobby's Board of Policy adopted the position favoring a constitutional amendment outlawing desecration of the U.S. flag about 10 years

sored the Senate bill that came just a few votes shy of restoring the power to protect the flag that has been denied for the past nine years.

"The 106th Congress must follow through and make the Flag Protection Amendment a reality," he added.

Mrs. Emerson said protecting the flag is a matter of defending our heritage, not free speech.

"As you know, there have been several attempts to outlaw by statute the desecration of the flag," she added. "Both Congress and state legislatures have passed such measures in recent years, only to be overruled later by decisions of the Supreme Court . . .

"The most common objection to this kind of amendment is that it unduly infringes on the freedom of speech," Mrs. Emerson continued. "However, this objection disregards the fact that our freedoms are not practiced beyond the bounds of common sense and reason. As is often the case, there are reasonable exceptions to the freedom of speech, such as libel, obscenity, trademarks, and the like.

"Desecration of the flag is this kind

California, and several other states in the southwest, are awash in illegal aliens. Now comes a federal lawmaker with a proposal that will toughen laws against smugglers who bring illegals across the border.

Rep. James Rogan (R-Calif.) has introduced a bill that would require "coyotes," those who smuggle aliens across the border, face stiffer sentences in federal court. Currently, there is an 18-month minimum for smuggling aliens.

"Every night along our 1,000-mile border with Mexico, hundreds of undocumented aliens are loaded into vans, trucks, car trunks and other concealed hiding spots," Rogan said. "They all hope that the few hundred dollars they paid will get them across the border. Often, it does not. For many, the story ends in robbery, violence, rape or worse.

The congressman has introduced the Alien Smuggler Punishment Act, H.R. 238. "This legislation is designed to send the message that preying on innocent victims and then escaping across the border will no longer be tolerated," Rogan said.

The Supreme Court says Old Glory can be burned, stomped or put in the garbage. Many populists believe she should be protected by law. Some congressmen are joining the fight to protect our flag from treatment like that above.

YOUR INFLUENCE COUNTS

You can contact the U.S. Capitol switchboard at (202) 224-3121. Call and ask for your lawmaker's office. (If you don't know the name of your representative or senators, the operator will be able to provide those names for you.)

Write your representative in care of the House of Representatives, Washington, D.C. 20515. Write both of your senators in care of the U.S. Senate, Washington, D.C. 20510.

If you wish to check on the status of any legislation, you may call (202) 225-1772.

Socialized Medicine Isn't Cure-All for Poor

Attention Hillary: government controlled medicine doesn't work.

BY THE SPOTLIGHT STAFF

Socialized medicine in Great Britain has been used as a model for implemented—and proposed—Big Brother health care throughout the world.

Now, the first network of private family doctors—not seen in Britain for 50 years—is being set up by a health insurance firm.

The move, which has profound implications for the future of the National Health Service (NHS) general practice, has been fueled by demands both from patients and general

practitioners (GPs). Up to 30 percent of GPs might be interested in developing private lists and working part-time for the NHS or on their days off.

According to published reports, there is growing dissatisfaction among this group of overburdened doctors, as they have found their workloads mounting and rewards diminishing

over the past 20 years.

There are now nearly 1,000 GP vacancies in the UK. Meanwhile, many patients in busy jobs are fed up with not being able to get convenient appointments and with having to wait half an hour for a consultation of five minutes or less.

GOVERNMENT CONCERNED

According to published reports, the government is known to be concerned about the perceived lack of responsiveness of the NHS to patients' needs and is encouraging doctors to come up with more flexible schemes. It would be concerned about lack of regulation in a large private general practice sector.

PPP, a leader in the private insurance field, will launch its first pilot scheme in "an English rural town" this month. It will provide consultations of 20 minutes or more for insured patients for a fee of between \$32 and \$56 a month. There will be 8 am-to-8 pm weekday and Saturday morning appointments.

Five more pilots will be launched during 1999.

Dr. Adrian Bull, PPP medical director, said: "What we are trying to do is to replicate British general practice on a private basis. We don't want to lose any of its strengths. Our market research says that 25 percent of patients would be interested and the initial response from GPs is very encouraging."

Elsewhere, Medicentres—walk-in private practices—are now being consulted by about 1,000 patients per month.

In another development, a Suffolk GP, Dr. Brian Goss, is seeking to set up a "GPCare" franchise arrangement for a network of GPs working privately. Their patients would be able to see

Everybody in Washington is Aware of the Klinton Kill Kount, but...

None Dare Call It Murder

A One-Hour Volcanic Video Hosted by Anthony J. Hilder

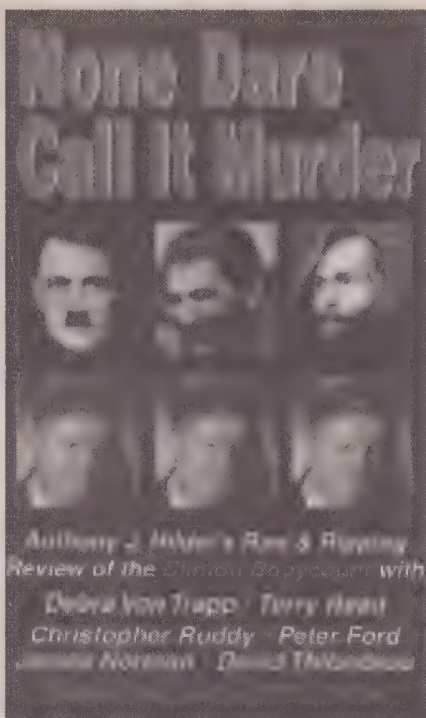

You've Heard the Rumors... Now Hear the Facts!

- The White House has turned into a whore house where everybody and everything is for sale. From Bill's boardroom to the bedroom, in the "*Bordello on the Beltway*" at 1600 Pennsylvania Avenue, each person and each place has a price... and sometimes that price is death!
- Everybody knows Klinton is a **sex offender**, a **liar** and a **cheat**. What isn't talked about in the "managed media" is the Klinton "**body count**." Why do those who know the "real truth" about his "**connections**" to **communism**, **corruption** & **cocaine** die... or fear for their lives?
- **Willa's Impeachment** wasn't come because he left his **Presidential Seal** in Monica's dress. Just how many of his former friends, enemies and associates have been **assassinated**, **accidentied** or **Arkancided**?
- More people who once posed **potential problems** to the President have been "**eliminated**"—than from the **combined kill count** of serial killers Jeffrey Dahmer, The Boston Strangler, John Wayne Gacy, Ted Bundy, Charles Miles Manson and Jack The Ripper put together!

None Dare Call It Murder leaves little doubt that when Klinton orders his "hit men" to carry out a **contract**, it's not always for another Cosco container of AK-47s for one of his "**ghetto gang**"

You've Heard the Rumors... Now Hear the Facts!

- The White House has turned into a whore house where everybody and everything is for sale. From Bill's boardroom to the bedroom, in the **"Bordello on the Beltway"** at 1600 Pennsylvania Avenue, each person and each place has a price... and sometimes that price is death!
- Everybody knows Clinton's a **sex offender**, a **liar** and a **cheat**. What isn't talked about in the "managed media" is the Clinton **"body count"**. Why do those who know the "real truth" about his "connections" to **communism**, **corruption** & **cocaine** die... or fear for their lives?
- Will's Impeachment won't come because he left his **Presidential Seal** on Monica's dress. Just how many of his former friends, enemies and associates have been **assassinated**, **accident**ed or **Arkancided**?
- More people who once posed **potential problems** to the President have been **"eliminated"**—than from the **combined kill count** of **serial killers** Jeffrey Dahmer, The Boston Strangler, John Wayne Gacy, Ted Bundy, Charles Miles Manson and Jack The Ripper **put together!**

None Dare Call It Murder leaves little doubt that when Clinton orders his "hit men" to carry out a **contract**, *it's not always* for another Cosco container of AK-47s for one of his **"ghetto gang"** support groups in Oakland, Atlanta or L.A.

This fact-filled tape, as one viewer described it, **"Slashes into Clinton's criminal cabal like a meat axe into a watermelon."** Gennifer Flowers said Clinton, "Openly talked about his **cocaine** use...& the weird effect cocaine sometimes had on him." This video includes actual police surveillance tape of his brother Roger *snorting a line of coke*.

If America knew that Clinton did drugs, ran the White House like **Murder Inc.**, and that Hillary was **A.C.** in D.C., would the President still *get support* from the **Immoral Majority**? This video leaves no doubt that Clinton belongs in the **"BIG HOUSE"**—not the White House.

You'll hear some the nation's top investigative reporters, like Pittsburgh's Christopher Ruddy, James Norman (former Senior Editor of Forbes Magazine) and Terry Reed who flew cocaine for the CIA. You'll see eyewitnesses to the Clinton Cavalcade of Crime like Debra Von Trapp (former White House computer operator and David Thiobea, survivor of the Waco Holocaust.

This shocumentary video can be yours to wake up your friends for only \$21.95 plus \$3.50 S&H.

Send check or money order to: Reko Inc., P.O. Box 4005, Joplin, MO 64803

For Visa or M/C orders, call toll free to: (800) 201-7892, Ext. 70

Beware of Windows 'Back Door'

The SPOTLIGHT has informed you of privacy intrusions by government agencies such as the FBI, CIA and NSA. Now we have discovered that anyone with the right computer program can drop in on you uninvited anytime you are out on the Internet.

Computer application programmers tell us that "there are thousands of

ways to add Remote Procedure Calls (RPC) to software." RPCs are useful tools but can also be misused as direct invasion of privacy *via* the wires connecting your machine to the Internet.

Generally clandestine RPC programming requires a technically knowledgeable hacker to operate, but since early last August, a user friendly program,

"Back Orifice," which, according to one expert, "any 12-year-old could learn to use," has been found lurking in personal computers.

This intruder comes by way of installed software on which it has been piggybacked. It is restricted to software which runs on Microsoft's Windows 95 and 98 programs. These are networking programs which means they are designed to easily accept RPCs, prompting many computer engineers to distrust Microsoft's Windows and their leaky "back doors."

Microsoft's owner Bill Gates, one of the richest men in the world, has lately been getting his feet wet in global plantation politics in the company of such as Mikhail Gorbachev and the international set. Gates has an earned reputation of being ruthless and predatory. It may be a good idea to carefully examine all files of any Microsoft or Windows software before installing it on your computer.

Hacker programs like Back Orifice come by stealth and open the machines on which they are installed without the owner's knowledge or permission.

Back Orifice's tools allow a hacker to use an "on line" computer almost as if he were at the keyboard but usually without being detected by the operator. Hackers can steal anything in the computer, cripple or modify any program or data desired, even erase programs and/or data. Or they can just monitor the use of the machine for whatever reason.

The SPOTLIGHT has reported the full story (beginning in June, 1987) of Bill and Nancy Hamilton's Inslaw and their Promis software. It was unlawfully appropriated by the U.S. Justice Department under Ed Meese and is now used worldwide. This was a case

SPOTLIGHT ON

THE INTERNET

tan in the way of a web site. PCHelp has checked on Back Orifice, run it, "waltzed" into computers around the world with it (but always informing the operator and helping rid the machine of it) and has come up with a means to detect its presence and delete it.

For all the information you need to discover if your computer is harboring a hidden copy of Back Orifice, and how to protect against it, type in <http://www.nwi.net/~pchelp/bo/bo.html> at your URL line.

British Medical Insurance Takes a Hit

(Continued from Page 9)

(HMOs) in the United States.

"This is not about GPs wanting to make a lot of money. Those who have approached me think it is a good idea because it will actually help them do a better job for their patients," he said.

RELIEVE PRESSURE

"My eventual aim would be to see 30 percent of the population covered by a private scheme," said Goss. He pre-

dicts that this could be achieved in 20 years or more.

He said the private consultations would relieve pressure on the NHS. However, large numbers of private doctors spending more time with fewer patients could have an impact on the availability of GPs in the NHS.

Ann Widdecombe, a health spokesman for the out-of-power Tories, said

she could see nothing wrong with people choosing to pay if they wished to. "It should not cause shortages of GPs," she said. "There would be the same number of doctors. It would mean that some people would choose to pay to see them."

Dr. John Chisholm, chairman of the British Medical Association's GP committee, said they had some concerns

about the developments, but pointed out: "GPs are feeling underpaid and undervalued. The NHS is virtually a monopoly employer and pays GPs the least it can get away with."

Health Secretary Frank Dobson said: "GPs have done a brilliant job for the past 50 years and will continue to do so. The PPP effort will be a sideshow like all the others."

Will socialized medicine be replaced by the private sector in Great Britain?

The Great Stock Market Bubble Resembles

The market cannot rise forever; investors must be prepared for the fall.

EXCLUSIVE TO THE SPOTLIGHT

BY W.A. CARTO

With the year 1600 the tulip, a then-exotic flower in Europe, became popular, so much so that by 1634 a brisk business developed in the plants, and no gentlemen could be considered truly admirable unless he owned some.

The price of tulips began to go up and up in response to the demand until some could be sold for 12 acres of building land, oxen, and other livestock or thousands of pounds of cheese. A suit of clothes, complete with ruffles, brass buttons, leggings and long stockings, then could be purchased for 80 florins but a single bulb of the tulip species known as Viceroy sold for 2500 florins and still the price went up. An entire industry was created, with salesmen and brokers. Holland had to draw up a code of laws to oversee the commerce in the flower. In England a bulb sold for 200 guineas.

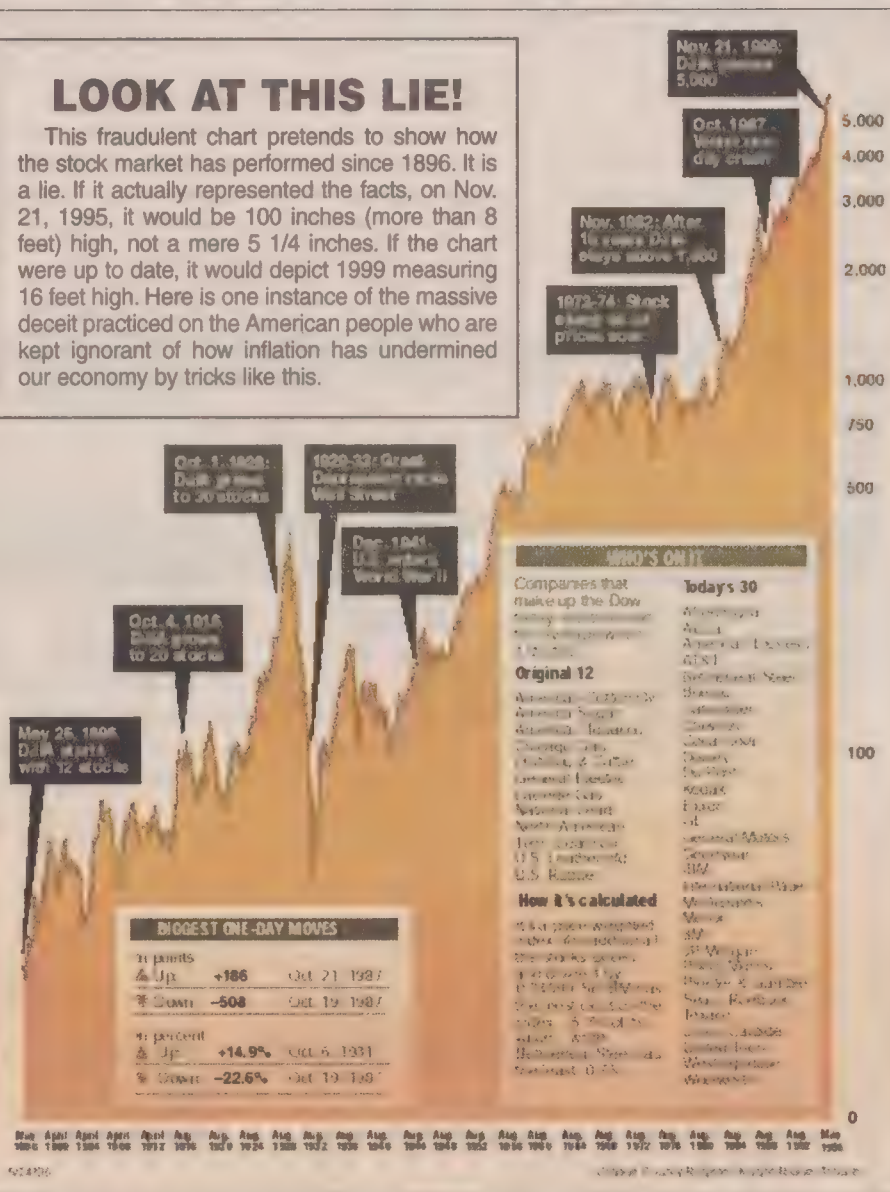

Of course, the price soon collapsed and buyers and sellers lost fortunes.

A century later, the South Sea Bubble occurred. On the strength of the rumors of the gold and silver found in Mexico, con men found it easy to sell shares in a corporation chartered for the purpose of profiting from this allegedly vast wealth. The price of shares rocketed and a mania seized investors, including the king of England. It took only a few years for reality to set in and all investors except, presumably, the fastest talking salesmen lost their ruffled shirts and, in some cases, their estates and everything they possessed as the shares collapsed.

At about the same time, one John

LOOK AT THIS LIE!

This fraudulent chart pretends to show how the stock market has performed since 1896. It is a lie. If it actually represented the facts, on Nov. 21, 1995, it would be 100 inches (more than 8 feet) high, not a mere 5 1/4 inches. If the chart were up to date, it would depict 1999 measuring 16 feet high. Here is one instance of the massive deceit practiced on the American people who are kept ignorant of how inflation has undermined our economy by tricks like this.

of France itself, Law had promoted the Mississippi Company, which he created, into a major enterprise.

By 1720, Paris was a madhouse, jammed by throngs of citizens attempt-

ly existed so that the promoter—John Law—could profit by the speculation. When it became clear that there was actually no company at all, the price of the shares collapsed. Law disguised his self-interest as a public good by

Bubble and the Mississippi Bubble are only three of the famous mass cons of history. America has had its Charles Ponzi and the Florida Real Estate Bubble, to name only two.

Does America now have its Great Stock Market Bubble? Starting in 1982, the stock market's Dow Jones average has shot up from a bottom of 782 to almost 10,000.

It is estimated that for every percentage point the stock market rises, \$100 billion is added to the value of the stocks. Assuming that the Dow hits 10,000, the total valuation of all American stocks will be about \$12 trillion. Relating this to the U.S. economy, the present valuation of the stock market—which historically was approximately one-half of the value of the nation's total economic output—is now 160 percent of our Gross National Product. Bear in mind that the present GNP no longer measures real production but by government fiat, now also includes government and service economy figures. Thus, if the stock market was reasonably valued in comparison to the real economy, share prices would be considerably less than half their current level.

No one contends that there is any reason for this in the fundamental economic picture. Corporate profits are not increasing to justify this rise, the outlook for American business is decidedly not good as virtually every other country in the world is faced with over-production as its currency weakens and its government tries to manage its debt and prevent its banks from collapsing. Still, the market goes up and up, as if it has a life of its own, separate from everything else except numerous stock market gurus who predict yet higher Dow Jones averages in defiance of the historical and physical law that what goes up must come down.

industry was created, with salesmen and brokers. Holland had to draw up a code of laws to oversee the commerce in the flower. In England a bulb sold for 200 guineas.

Of course, the price soon collapsed and buyers and sellers lost fortunes.

A century later, the South Sea Bubble occurred. On the strength of the rumors of the gold and silver found in Mexico, con men found it easy to sell shares in a corporation chartered for the purpose of profiting from this allegedly vast wealth. The price of shares rocketed and a mania seized investors, including the king of England. It took only a few years for reality to set in and all investors except, presumably, the fastest talking salesmen lost their ruffled shirts and, in some cases, their estates and everything they possessed as the shares collapsed.

At about the same time, one John Law appeared in France. A fast-talking promoter, Law—who was a fugitive from Scotland wanted for murder—wangled an appointment as controller general of the currency of France. By the time he fled for his life, after ruining thousands of Frenchmen and the credit

of France itself, Law had promoted the Mississippi Company, which he created, into a major enterprise.

By 1720, Paris was a madhouse, jammed by throngs of citizens attempting to buy shares in the company which had as its purpose the exploitation of the vast trading riches of the Louisiana Territory. Shares of the company enriched everyone as the price shot up and up.

Sadly, the Mississippi Company real-

ly existed so that the promoter—John Law—could profit by the speculation. When it became clear that there was actually no company at all, the price of the shares collapsed. Law disguised himself as a beggar to escape, and he did so as Paris lynch mobs hunted for him.

The Tulip Bubble, the South Seas

ernment fiat, now also includes government and service economy figures. Thus, if the stock market was reasonably valued in comparison to the real economy, share prices would be considerably less than half their current level.

No one contends that there is any reason for this in the fundamental economic picture. Corporate profits are not increasing to justify this rise, the outlook for American business is decidedly not good as virtually every other country in the world is faced with over-production as its currency weakens and its government tries to manage its debt and prevent its banks from collapsing. Still, the market goes up and up, as if it has a life of its own, separate from everything else except numerous stock market gurus who predict yet higher Dow Jones averages in defiance of the historical and physical law that what goes up must come down.

Or is that a law? After all, rockets and satellites go up and can be directed so that they never come down but keep

HUMAN GROWTH HORMONE

HGH Oral Spray Now Available!

Actual HGH! Not an herbal stimulant or precursor!
Low but effective dosage, totally safe!

DRAMATICALLY TURNS BACK THE AGING CLOCK!

In clinical trials, HGH has been scientifically proven to:

- Increase Energy and Sex Drive
- Lessen Wrinkles and Gray Hair
- Reduce Fat and Cellulite
- Build New Muscle
- Strengthen the Immune System
- Quicken Wound Healing
- Improve Vision
- Sharpen Memory and Brain Power
- Restore Deep Sleep
- Lower Cholesterol
- Increase Exercise Performance
- And Much, Much More

HGH is a Natural Substance that Everyone Over 40 Becomes Deficient In!

This is not sales hype, and it is not MLM!
Clinical tests provided; read for yourself!
Affordable, lowest price available!

Many Great Financial Schemes of the Past

rising to infinity. Can today's stock market also be programmed to never come down? An interesting thought that must have occurred to Alan Greenspan, our chief stock astronaut.

In his newsletter, *Early Warning Report*, advisor Richard Maybury asks a most interesting question. Are stock prices prices? If so, then why are they not included in the government's Consumer Price Index (CPI)? If they are factored into the CPI, he says, then we are in the midst of a killing inflation. In fact, as the prices of everything else show little rise, the price of stocks skyrocket.*

The stock market rise has affected the whole economy in many ways. Many winners in the market have borrowed on their stock and have built or are building luxury homes, no doubt, borrowing the balance and placing a mortgage on the property. The current building boom reflects this.

We seem to have a stock market rock-

eting up under its own mysterious fuel (the answer to the mystery known only to a chosen few) creating illusory wealth which is, in turn, being used to further inflate the economy with borrowed money. If that is not a bubble, what would you call it?

Should the stock market show a seri-

ous decline that cannot be contained by the Fed, the repercussions would hit the national economy like a tidal wave and devastate the entire world economy.

Bubbles—in spite of Mr. Greenspan's labors—always are pricked and the collapse of the stock market bubble will prove no exception to this.

*If stock prices are proper CPI prices, then the problem of the Upright Spike is solved, and inflation has continued well past the time when other indices show that it has stopped. Only readers who remember Dr. E.L. Anderson's monographs on the Upright Spike will understand this reference.

ELECTRICITY BEFORE · DURING · AFTER NATURAL DISASTERS GET PREPARED

— NO EXPENSIVE SOLAR PANELS —

With today's technology you can make your own electricity to power your home. Huge house (3,000 sq. ft. living area) shown in video has more electrical devices than most modern homes: T.V., washer, dryer, 30 cu. ft. refrigerator, sauna room, water well pump, central air conditioning, etc., but we buy no electricity from anyone.

Video will clearly show every component involved in this electrical power system, and the enclosed literature will provide sources to buy the 5 key components of the system.

This is not a new invention, but an innovative design using technology that can be bought off the shelf, which now makes it feasible and extremely reliable. NOT SOME VAGUE THEORY (not a free energy device).

This is something we have lived with for over 3 years, 24 hours a day without a single power failure (which is something none of our neighbors who are hooked up to the power lines of the Electric Power company can say).

— 100% SATISFACTION GUARANTEED —

Send \$32 plus \$3 shipping (check or money order) for 1 hr. video of independent electrical system for the home to: Mr. J. Bourgeois, Suite 102, 3220 N. Arnoult Rd., Metairie, LA 70002. Shipped First Class in 72 hours.

Oklahoma Grand Jury Failed to Answer

How and why did the grand jury investigating the Oklahoma City bombing determine there was "no conspiracy" bigger than Timothy McVeigh and Terry Nichols in the bombing. What were the secret forces at work manipulating the grand jury? These were some of the provocative questions addressed on the Jan. 3 broadcast of The SPOTLIGHT's weekly call-in talk forum, Radio Free America, with host Tom Valentine. The guests were independent investigator Pat Briley and former Oklahoma state Rep. Charles Key. An edited transcript of the first half of the interview was published in the Feb. 1 issue of The SPOTLIGHT. What follows is an edited transcript of the second half of the interview. Valentine's questions are in boldface. Responses by Key and Briley are in regular text.

There's evidence that there was foreknowledge by the federal authorities of an impending bombing.

Briley: The grand jury heard and chose to disregard testimony related to the fact that there were two deputy sheriffs at the Murrah building after the bombing. They later talked to U.S. Rep. Ernest Istook (R-Okla.) and an attorney who was traveling with him. They stated that Istook basically indicated that the government had an idea that the bombing could occur and that the government got specific information on April 9 (10 days before the bombing). The deputies said that Congressman Istook said, "They blew it."

Istook testified before the grand jury and called this story garbage. He denied everything. The deputies testified and gave their version. I might add that the same FBI agent who threatened me also threatened one of these deputies over this matter. The FBI agent tried to rewrite the statement that the deputy gave to the FBI.

This forewarning that these deputies talked about was Middle Eastern in nature. The April 9 threat was supposed to be carried out by Middle Easterners.

Key: The deputy reserve sheriff who actually had the conversation with Istook told his story to the FBI. When

what he had told the FBI that the congressman had said. However, the FBI responded by saying, "Well, I'm just going to put down such-and-such." And again, the deputy objected. But the FBI agent said that he would go ahead and write the report about the congressman the way he wanted to. But the deputy, a fine Christian man and of great integrity, wrote a letter right away to Attorney General Janet Reno, told this story and protested what this agent had done. We have a copy of that letter and it will be presented to Congress.

Briley: A copy of this letter was also sent to the head of the FBI in Oklahoma City and to the Pentagon's terrorism advisor prior to the deputy's testimony to the grand jury. We believe the FBI agent would try to testify to a different version of the story than what the deputy would. But the grand jury ignored all of this, and concluded that there was just some sort of misunderstanding. And that's exactly what this FBI agent was trying to do.

You mentioned that the same FBI agent who lied about your statement to the FBI was involved in falsifying information.

Briley: The FBI agent's name is James Carlisle. We have found out that Carlisle did almost 1,000 interviews in

Timothy McVeigh has been given the death sentence for his role in the OK bombing. His case is presently under appeal.

ened me over a long list of things that I had found out about. For instance, FBI agents were not in the Murrah building at the time of the bombing. Also, Judge Wayne Alley had prior warning of a bombing attempt. My wife has been repeatedly threatened by the wives of FBI agents. Carlisle came to my house and said as he was going to put in a report that I was "lying."

Both you and your wife have been threatened because of this knowledge. Is that one reason why you have been so outspoken about all of this?

Briley: The appropriate Senate and House committees know about this. Both of Oklahoma's senators and my congressman (Istook) know about it. Yet, so far, nothing has been done. Now, there are two other officials are linked to this story. They are former Rep. Dave McCurdy and Sen. James Inhofe (R-Okla.). McCurdy used to head the House Select Committee on Intelligence. At the time of the bombing he

Hamas, in Oklahoma City. These agents were capable of the Oklahoma City bombing. He also said the FBI had shown him film of these Hamas terrorists training in Oklahoma City.

McCurdy wasn't called by the grand jury although this was known to them. This is significant, considering McCurdy's prior position with the House Select Committee on Intelligence.

Finally, I recently learned—and I have talked to Inhofe personally about this—that his chief of staff was speaking directly to the FBI command post in Oklahoma City within hours after the bombing. Inhofe's chief of staff provided detailed information to two reporters whom I have talked to. The chief of staff stated that the Justice Department and FBI were upset. They were concerned that they were going to get in trouble because the reporters had learned that there was possibly a Middle Eastern connection and that there were other John Does involved in the bombing. This was reported to Inhofe's chief of staff by

Briley: The FBI agent's name is James Carlisle. We have found out that Carlisle did almost 1,000 interviews in this case, many of them with John Doe witnesses. We believe that he falsified or slanted their statements. He brags about this.

Carlisle came to my home and threat-

Wayne Alley had prior warning of a bombing attempt. My wife has been repeatedly threatened by the wives of FBI agents. Carlisle came to my house and said as he was going to put in a report that I was "lying."

Both you and your wife have been threatened because of this knowledge. Is that one reason why you have been so outspoken about all of this?

Briley: The appropriate Senate and House committees know about this. Both of Oklahoma's senators and my congressman (Istook) know about it. Yet, so far, nothing has been done. Now, there are two other officials are linked to this story. They are former Rep. Dave McCurdy and Sen. James Inhofe (R-Okla.). McCurdy used to head the House Select Committee on Intelligence. At the time of the bombing he had just left that post.

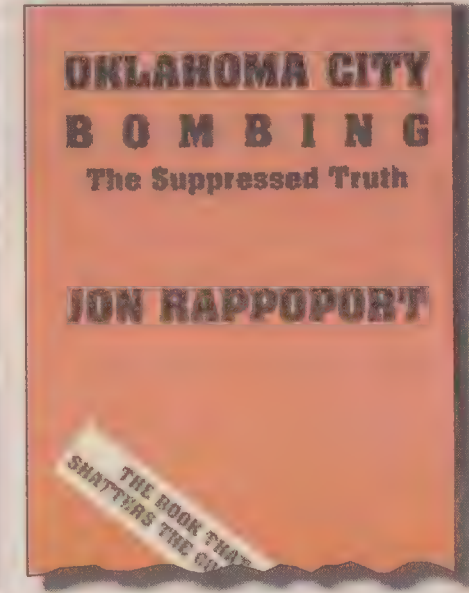

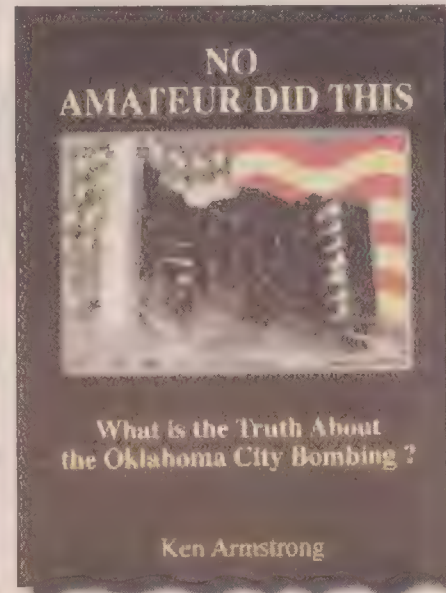

But in May of 1995, he wrote an article in which he flatly stated that the FBI had told him that there were Middle Eastern demolition experts, from

ists training in Oklahoma City.

McCurdy wasn't called by the grand jury although this was known to them. This is significant, considering McCurdy's prior position with the House Select Committee on Intelligence.

Finally, I recently learned—and I have talked to Inhofe personally about this—that his chief of staff was speaking directly to the FBI command post in Oklahoma City within hours after the bombing. Inhofe's chief of staff provided detailed information to two reporters whom I have talked to. The chief of staff stated that the Justice Department and FBI were upset. They were concerned that they were going to get in trouble because the reporters had learned that there was possibly a Middle Eastern connection and that there were other John Does involved in the bombing. This was reported to Inhofe's chief of staff by the head of the FBI's command post. I would think that this alone would call for congressional hearings.

Why would the Clinton administration or the FBI powers-that-be

Liberty Library offers several books on the Oklahoma City bombing. *OK Bomb!—The Truth Behind the Oklahoma City Bombing* (\$16.95); *No Amateur Did This: What Is the Truth About the Oklahoma City Bombing?* (\$21.95); *Timothy McVeigh: Mastermind or Patsy?* (\$10); *Oklahoma Bombing: Suppressed Truth* (\$14.95); and the video, *Oklahoma Bombs: A Report to the U.S. Senate* (\$25). All add insight into the bombing. Each is available from Liberty Library, 300 Independence Avenue SE, Washington, D.C. 20003.

ver Questions; Critics Promise Report

want to cover up an Arab terrorist threat such as one coming from the Hamas underground or the Iraqis? After all, they've been looking for an excuse to go after Saddam Hussein for a long time.

Briley: There are two specific reasons why Clinton would personally want to be involved in the cover-up, and I have evidence that he was.

First of all, the Iraqi who is the prime suspect in this case was brought to the United States after the Gulf War by President Clinton, who personally intervened. This was over the objection of U.S. senators and POW family members. This Iraqi served as a Republican Guard for Saddam Hussein. These senators went to the president and tried to get this transfer stopped.

The second reason is that President Clinton's private investigator and longtime friend, Terry Lenzner, is directly connected to this bombing. Interestingly, Lenzner employs former FBI agents Larry Potts and Howard Shapiro, who were both involved in Ruby Ridge and Waco.

Lenzner was the personal investigator for the president starting in April of 1994. He contacted reporter Jayna Davis, at Channel 4 in Oklahoma City, and tried to interfere with her investigation. She would not cooperate with him and afterward they had all kinds of terrible disruptions. Lenzner employs a Pakistani who works in Tulsa, Oklahoma, who has been connected by other witnesses in this case to the Oklahoma City bombing. Lenzner is also a close personal friend of Hillary Clinton and worked with her under Sam Dash on the Watergate investigation.

Federal authorities are acting like they had foreknowledge of the bombing. They are acting like they are covering

Many don't believe either the federal government or the local grand jury's version of the bombing. Critics say there is too much evidence of forewarning that hasn't been explained.

Oklahoma City district attorney's office are trying to avoid embarrassment, since both of them cut a plea bargain with Fortier when they shouldn't have.

There were other witnesses threatened. Four army recruiters saw McVeigh with another John Doe in the Murrah building. It was okay for them to talk about seeing McVeigh, but they were threatened for talking about seeing McVeigh with a John Doe. One of these ladies, Arlene Blanchard, testified before the grand jury, but her testimony was ignored. She was threatened by the FBI and she has been upset by this.

Debbie Burdick, Debbie Nakanoshi

made known on radio here in Oklahoma City. What were they threatened about? For discussing a Middle Eastern connection and for discussing John Does with McVeigh.

Let's talk about Michael Fortier who testified that he knew Timothy McVeigh was going to bomb the Murrah building.

Key: Fortier is not too far from getting out of prison and there are a lot of people here in Oklahoma City, survivors and families of victims, who are pretty upset that he didn't get a bigger sentence.

Briley: There are two appeals right

office and the judge knowingly violated the state statutes in a deliberate effort to mislead the grand jury as to which witnesses they could call, which testimony they could consider and whether testimony was hearsay or not. There's a lot of hard evidence supporting this.

There were several formal documented complaints brought to officials in Oklahoma, including reports of witness tampering by the FBI.

We're not saying that the grand jurors deliberately engaged in a cover-up here, but I am saying that the district attorney and the judge were. We complained about all of this and gave

ly, Lenzner employs former FBI agents Larry Potts and Howard Shapiro, who were both involved in Ruby Ridge and Waco.

Lenzner was the personal investigator for the president starting in April of 1994. He contacted reporter Jayna Davis, at Channel 4 in Oklahoma City, and tried to interfere with her investigation. She would not cooperate with him and afterward they had all kinds of terrible disruptions. Lenzner employs a Pakistani who works in Tulsa, Oklahoma, who has been connected by other witnesses in this case to the Oklahoma City bombing. Lenzner is also a close personal friend of Hillary Clinton and worked with her under Sam Dash on the Watergate investigation.

Federal authorities are acting like they had foreknowledge of the bombing. They are acting like they are covering up. I can give examples of some nine to 12 people who have been threatened by the FBI after they said that they saw Timothy McVeigh with John Does other than Terry Nichols. The threats are still ongoing.

Let me give you an example. Right now, Dr. Paul Heath is spouting the government's line, but several journalists in the fall of 1995 reported that McVeigh and two other men were at the Murrah building and in Heath's office on April 7. Heath says he thinks one of them could have been Michael Fortier, who testified against McVeigh. Heath helped Charles Key get the grand jury instituted and talked to the late Glenn Wilburn, whose two grandsons died in the bombing.

The FBI interviewed Heath about having seen McVeigh with the John Does. They threatened him and told him that if he continued to talk about this, they would ruin his reputation in Oklahoma City. That was a direct threat and he was upset. And this is consistent with other information that we have about Fortier being in Oklahoma City with McVeigh on April 6 and April 7.

It appears Fortier is heavily involved in this case. The government and the

Many don't believe either the federal government or the local grand jury's version of the bombing. Critics say there is too much evidence of forewarning that hasn't been explained.

Oklahoma City district attorney's office are trying to avoid embarrassment, since both of them cut a plea bargain with Fortier when they shouldn't have.

There were other witnesses threatened. Four army recruiters saw McVeigh with another John Doe in the Murrah building. It was okay for them to talk about seeing McVeigh, but they were threatened for talking about seeing McVeigh with a John Doe. One of these ladies, Arlene Blanchard, testified before the grand jury, but her testimony was ignored. She was threatened by the FBI and she has been upset by this.

Debbie Burdick, Debbie Nakanoshi and Rick Sennett were also threatened by the FBI. Their stories have been

made known on radio here in Oklahoma City. What were they threatened about? For discussing a Middle Eastern connection and for discussing John Does with McVeigh.

Let's talk about Michael Fortier who testified that he knew Timothy McVeigh was going to bomb the Murrah building.

Key: Fortier is not too far from getting out of prison and there are a lot of people here in Oklahoma City, survivors and families of victims, who are pretty upset that he didn't get a bigger sentence.

Briley: There are two appeals right now before the Tenth Circuit Court of Appeals that bear upon Fortier. He is appealing his sentence and wants it reduced further. The other appeal involves a federal law that allowed him to plea bargain in the first place. Since those two legal actions are before the Tenth Circuit, there is the opportunity for people to file friends of the court (*amicus curiae*) briefs showing that the federal authorities did have, or should have had, much more evidence that Fortier was deeply involved. He should not have been given a plea bargain. I believe that the FBI and the Oklahoma City district attorney's office did know these details.

There is a witness who did testify before the grand jury about Fortier's involvement in the bombing and presence in Oklahoma City shortly before the bombing. There was nothing in the grand jury report about Michael Fortier and his involvement. There were also other witnesses known to the district attorney's office who should have been called before the grand jury who could place Fortier in Oklahoma City on April 6.

I believe that the district attorney's

office and the judge knowingly violated the state statutes in a deliberate effort to mislead the grand jury as to which witnesses they could call, which testimony they could consider and whether testimony was hearsay or not. There's a lot of hard evidence supporting this.

There were several formal documented complaints brought to officials in Oklahoma, including reports of witness tampering by the FBI.

We're not saying that the grand jurors deliberately engaged in a cover-up here, but I am saying that the district attorney and the judge were. We complained about all of this and gave them a chance to make things right, but they didn't. This shows me that the court system in Oklahoma is corrupt.

There were at least 10 witnesses from Kansas who were interviewed by Charles Key's investigators and others. Their evidence was made available to the grand jury. This evidence showed that there were people working with McVeigh up in Kansas, including the German, Andreas Strassmeir. They were never called before the grand jury. Why? One witness was directly threatened by the Kansas Bureau of Investigation, but nothing was done.

There were numerous witnesses who saw Timothy McVeigh with those who appeared to be Middle Eastern in Oklahoma City before the bombing and the day of the bombing. They were never called.

There were credible John Doe witnesses who were never called. They did not call the Israeli source, who had foreknowledge of the bombing. The government knew about him. They did not call the Pentagon's terrorism advisor who has openly said that the FBI had foreknowledge. It stinks. There's something wrong.

MACULAR DEGENERATION?

(Special) If you suffer symptoms of macular degeneration or are experiencing eye and vision problems, you should know about a new book called *The Macular Degeneration Handbook—Natural Ways to Prevent and Reverse It*.

The book contains a wealth of new information on this condition—what causes eye and vision problems, how to help halt and even reverse them, and how to protect yourself from macular degeneration and other eye problems.

The book gives you facts on the latest natural and alternative remedies and treatments that help improve this condition. You will learn all about these natural remedies and find how and why they work.

You'll discover what to do to prevent and heal macular degeneration, what nutritional supplements may help, the best diet for healthy eyes, what chemicals to avoid to prevent further problems, and how over-the-counter and

prescription drugs may contribute to the worsening of this condition.

The book also explains how your eyes work, basic eye care, ways to promote clear vision, how to avoid vision-destroying toxins and cleanse your body of them, how to heal and prevent glaucoma, cataracts, and retinal problems, and why over 12 million Americans suffer from macular degeneration.

Many people are putting up with vision loss due to macular degeneration and other eye problems because they are unaware of the new natural and alternative remedies, and the welcome help that is now available.

Get all the facts. The book is available for only \$12.95 (plus \$3 postage and handling). To order, send name and address with payment to United Research Publishers, Dept. SLV-03, 103 North Coast Highway 101, Encinitas, CA 92024. You may return the book within 90 days for a refund if you are not 100% satisfied.

VARICOSE VEINS?

(Special) If you suffer from varicose veins and have symptoms such as:

- bulging blue lines running down your legs
- painful, tired and weak legs, especially after periods of standing or sitting
- ankles and legs that become swollen, or burning or itching skin on your legs

you should get a copy of a new book on natural and alternative methods for treating varicose veins.

The book covers a wealth of new information—what causes varicose veins, how to halt and even reverse them, and how to protect yourself from complications that often accompany varicose veins.

The book gives you the latest up-to-date facts on new natural, alternative and medical treatments for this condition. You will learn all about these treatments and discover how and why they work.

You'll discover what vitamins and nutri-

walls of your veins and arteries healthy, and promotes healing of varicose veins. You'll even learn what foods help prevent blood clots—thus avoiding very serious problems.

The book also explains the history of this condition, why more women suffer than men, why over 2 million people become disabled by varicose veins, the 4 things you must do to avoid serious problems—and the latest advances to treat and prevent this problem.

Many people are putting up with varicose veins because they do not know about new natural and alternative treatments and the remarkable results that can now be achieved.

Get all the facts. To order simply print your name and address with the words "Varicose Veins" on a piece of paper and mail it together with a check or money order for only \$12.95 (plus \$3 postage & handling) to United Research Publishers.

Internet Column Debuts

Note our new feature starting this week, Spotlight on the Internet, on page 10. This is designed both for Internet fans and those who are not one of the 87 million persons in the United States and Canada who are.

The new column is designed to help Internet users save time by discussing what's good and no good and how to find the good stuff.

The Internet has turned the world upside down in a way, but there is nothing new under the sun. The huge mass of web sites makes it impossible for anyone to become familiar with everything. There are some 30 million web sites already, and the number is doubling every year. As of the end of last year there were 400 million web pages. Taking two minutes each and working 100 hours per week, it would take 2,654 years to read them all.

Clearly, the Internet "Information Age" has come and gone. It has gone right by because there is just far too much up there. Someone has to make

LIBERTY LOBBY REPORTS

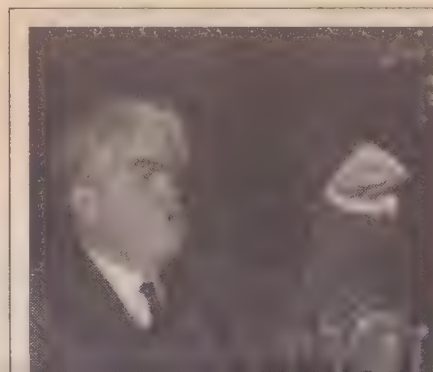

By Vince Ryan

sense out of it; take the time to sort out the junk and report on what's left; to bring to the attention of Internet users what's good and useful.

This means sorting out the garbage, which takes up at least 99 percent of Internet space. We define garbage as leftist New World Order internationalist propaganda, pornography and sexual perversion, advertising, personal promotion, drug pushers (*High Times* etc.), the crazy or just plain nonsense including flying saucers and far-out or dangerous cults such as Scientology.

Overlooking the junk, there is a great deal out there that is very useful, helpful and valuable. For example, in addition to our web site (www.spotlight.org) we recommend our sister publication THE BARNES REVIEW (www.barnesreview.org) and an excellent one that has been set up for us gratis by Webb Industries: webbindustries.com/spotlight/index.html and many others which will be listed from time to time in the new column. In fact, if you have suggestions they will be most welcome.

The Internet is a very useful tool and like any tool has to be used properly. It is not a toy or a game or a forum for criminal activity or making or harmful

VARICOSE VEINS?

(Special) If you suffer from varicose veins and have symptoms such as:

 - painful, tired and weak legs, especially after periods of standing or sitting
 - ankles and legs that become swollen, or burning or itching skin on your legs
- you should get a copy of a new book on natural and alternative methods for treating varicose veins.

The book covers a wealth of new information—what causes varicose veins, how to halt and even reverse them, and how to protect yourself from complications that often accompany varicose veins.

The book gives you the latest up-to-date facts on new natural, alternative and medical treatments for this condition. You will learn all about these treatments and discover how and why they work.

You'll discover what vitamins and nutrients may help, what specific vitamin deficiency may cause problems, what 5 foods may yield astonishing results. The book tells you how one vitamin helps keep the

walls of your veins and arteries healthy, and promotes healing of varicose veins. You'll even learn what foods help prevent blood clots—thus avoiding very serious problems.

The book also explains the history of this condition, why more women suffer than men, why over 2 million people become disabled by varicose veins, the 4 things you must do to avoid serious problems—and the latest advances to treat and prevent this problem.

Many people are putting up with varicose veins because they do not know about new natural and alternative treatments and the remarkable results that can now be achieved.

Get all the facts. To order simply print your name and address with the words "Varicose Veins" on a piece of paper and mail it together with a check or money order for only \$12.95 (plus \$3 postage & handling) to United Research Publishers, Dept. SLZZ-10, 103 North Coast Highway 101, Encinitas, CA 92024. You may return the book within 90 days for a refund if not 100 percent satisfied.

TINNITUS?

New Book Tells You How to Stop Ringing in Your Ears

(Special) If you experience symptoms such as ringing in the ears, or buzzing, hissing, whistling or other sounds, you should know about a new book, *The Tinnitus Handbook—A Self Help Guide*.

The book reveals the latest information on Tinnitus—what causes unwanted noises, how to deal with them, and how to protect yourself from irritating Tinnitus symptoms.

The book gives you facts on the latest natural, alternative and medical remedies that can bring lasting relief from unwanted ringing and irritating sounds in your ears. You will learn all about new treatments and find out how and why they work.

You'll discover how to get relief from Tinnitus by gently massaging a specific part of your neck. You'll find out about a simple breathing exercise which "cleanses" the inner ear and brings re-

lief. You'll discover how uttering a specific sound helps some Tinnitus sufferers and how certain dietary changes can bring dramatic results. You'll learn how an herbal ear drop used before bedtime can help—and even how a little-known prescription medication brings relief about 76 percent of the time.

Many people are putting up with irritating Tinnitus problems because they are not aware of new natural treatments and the welcome relief that is now available.

Get all the facts. Order *The Tinnitus Handbook—A Self-Help Guide*. The book is available for only \$12.95 (plus \$3 postage & handling.) To order, simply send your name and address with payment to: United Research Publishers, Dept. SLB-05, 103 North Coast Highway 101, Encinitas, CA 92024. You may return the book within 90 days for a refund if not 100 percent satisfied.

Michael New: American Hero

The oath United Nations officers must take and the one American soldiers take proves that Michael New, the only American ever tried and convicted by court martial for wanting to serve his country in uniform, was dead right.

New—a young, enlisted man—refused to don UN insignia and serve in Macedonia under the command of a Finnish officer. He believes that his oath forbids it, and for that he was court-martialed. His appeal is still winding its way through the courts.

But let's look at the oaths. An American soldier swears as follows: "I do solemnly swear that I will support and defend the Constitution of the United States against all enemies, foreign and domestic; that I will bear true faith and allegiance to the same; and that I will obey the orders of the president of the United States and the orders of the officers appointed over me, according to regulations and the Uniform Code of Military Justice."

Now, here is the oath that officers serving the United Nations must take: "I solemnly affirm to exercise in all loyalty, discretion and conscience the functions entrusted to me as a member of the international service of the United Nations, to discharge those functions and regulate my conduct with the interest of the United Nations only in view and not to seek or accept instructions in respect to the performance of my duties from any government or other authority external to the organization."

As you can plainly see, a person cannot be loyal to both the United States and the United Nations. The United Nations is a separate, foreign government. And that was Michael New's point: He never took an oath to the United Nations, and no one had authority to place him under foreign command.

These UN American troops warm their feet in the exhaust of a tank in Bosnia. The oath a U.S. soldier takes when entering the United States armed forces is in direct odds with the oath of a UN "peacekeeper."

ing World War I, British and French officials proposed that they be integrated into the Allied forces and serve under British and French command. Gen. Blackjack Pershing flatly refused. No American soldier, he said, would serve under a foreign commander.

This is an issue that all Americans should join, for it is much larger than Michael New. The question is, do we want America to retain its sovereignty and independence for which our ancestors fought a war with Great Britain, or do we wish it to become a non-independ-

ent part of an international, sovereign government?

Yes or no.

And you had better decide, because the American Establishment is opting gradually to dissolve American independence and to make it into an international order. To prepare Americans for that loss of independence, the present administration is ordering American troops to serve under UN command, doing UN errands. American troops are posted in more than 100 foreign countries, in nearly every case as

A PIECE FROM REESE

By Charley Reese

UN errand boys or UN leg-breakers.

In a speech urging rejection of the League of Nations, Sen. Henry Cabot Lodge said: "It must be made perfectly clear that no American soldiers, not even a corporal's guard, that no American sailors, not even the crew of a submarine, can ever be engaged in war or ordered anywhere except by the constitutional authorities of the United States. To Congress is granted by the Constitution the right to declare war, and nothing that would take troops out of the country at the bidding or demand of other nations should ever be permitted..."

As you can see, the fight for American sovereignty is a continuing fight. Which side are you on: America's or the internationalists? Do you have the courage of Michael New to stand by your country?

The shape of the future depends on the answers.

EDITORIAL

STUPID INTERVENTION

Interventionists who have always supported the idea that it is right and proper and intelligent for Americans to get involved in other peoples' wars and troubles, and set aright the squabbles that naturally occur between the nations, are now starting to look askance at Kosovo and the mess in the Balkans, much of which "we" created.

Some of them are writing columns, such as a recent one by retired Col. Harry Summers, who has discovered a 177-year-old quotation by Secretary of State John Quincy Adams who cautioned that with a policy of intervention, America "would involve herself beyond the power of extraction in all the wars of interest and intrigue, of individual avarice, envy and ambition, which assume the colors and usurps the standards of freedom."

Believe it or not, even *Foreign Policy*, the influential quarterly of the Carnegie Endowment for International Peace, is sounding the retreat from internationalism. Its Winter, 1998-99

issue asks on the cover, "Has Globalization Fizzled Out?" and devotes the entire issue to this question. George Soros, the epitome of the internationalist mega-billionaire speculator, is quoted as saying in his new book, *The Crisis of Global Capitalism*, "The world is in the grip of an acute financial and political crisis. The crisis, if left unchecked, will lead to the disintegration of the global capitalist system."*

But don't get optimistic that the current wisdom offered by editorial writers and talking heads about our stupid intervention in the Balkans signals that the ruling internationalist establishment is suffering from a rare stroke of good sense. That's not the case at all. Because even as the pundits and policy makers now are beginning to deplore our stupid intervention in the Balkans, they counsel eternal intervention in the Mideast, especially in confronting Iraq and Iran.

Of course, it is just as stupid to try and control the Mideast as it is to do

the same in the Balkans. America can not control the affairs of either. Repeat,

AMERICA CANNOT CONTROL THE WORLD

no matter how much we spend.

The major difference between the Balkans and the Mideast is that our great and glorious ally—Israel—has a major interest in keeping the Mideast divided, unbalanced and in a state of perpetual chaos, and that is the policy of "our" State Department and War Department (we don't call it "Defense").

Like Britain, splitting the opposition is the keystone of Israel's foreign policy.

It is elementary that the more effort—men, planes, arms and money—that we pour into the Balkans, the less we can set aside for what really matters to the Israelis—containing Iraq, Iran, Syria, Egypt and the other natural enemies of Israel. That's why they want us out of the Balkans.

The situation is fundamentally similar to Vietnam. The real reason "we"

had to scuttle out of Vietnam, with "our" tail between our legs, is that Israel needed "our" undivided attention and support in the Mideast.

Remember this the next time you read or see or hear some "expert" foreign policy whiz explain to you that, well, maybe "we" have bitten off more than we can chew in the Balkans and should scuttle out. Don't expect him to draw any statesmanlike wisdom from this and conclude that maybe "we" ought to get out of the Mideast, too—as this newspaper has been arguing throughout its existence.

The founder of our country, George Washington, said it best in his *Farewell Address*, of which our publisher, Liberty Lobby, has distributed millions of copies since its founding:

The great rule of conduct for us, in regard to foreign nations, is, in extending our commercial relations, to have with them as little political connection as possible . . .

Europe [and the entire world] has a set of primary interests, which to us have none, or a very remote relation. Hence, she must be engaged in frequent controversies, the causes of which are essentially foreign to our concerns . . .

It is true policy to steer clear of permanent alliance with any portion of the foreign world . . .

In honor of Washington's birthday, The SPOTLIGHT will reprint the complete Farewell Address in its issue of Feb. 22, the date of his birth. ♣

* See the related article by W.A. Carto, "The Great Stock Market Bubble," on pages 12 and 13 of this issue.

Gunmakers Shoot Themselves in Foot

Rick Pines, former editor of *Guns & Ammo Annual*, was the guest on *Radio Free America* (RFA) Jan. 24. He talked about the history of gun-grabbing legislation.

Pines pointed out that the first gun control lobbying actually was helped along by the manufacturers of "Gun Valley" in Connecticut in the 1960s. Looking to curb cheap

makers, for example, to claim benefits for heart attack victims but does not allow the same claims for vitamin E or specific herbal extracts.

Citizens for Health recently conducted a significant "write to know" campaign against FDA abuses. Anyone may call and learn about this activist group at 1-800-357-2211.

Gunmakers Shoot Themselves in Foot

Rick Pines, former editor of *Guns & Ammo Annual*, was the guest on *Radio Free America* (RFA) Jan. 24. He talked about the history of gun-grabbing legislation.

Pines pointed out that the first gun control lobbying actually was helped along by the manufacturers of "Gun Valley" in Connecticut in the 1960s. Looking to curb cheap import competition, the major gun makers

secretly backed a bill introduced by former Sen. Thomas Dodd (D-Conn.). In the second hour, Susan Haeger, president and CEO of Citizens for Health, was the guest. Ms. Haeger outlined the recent appellate court decision that helped set the FDA back in its drive to keep the vitamin and dietary supplement industry under the FDA's regulatory thumb.

The higher court ruled against the FDA in the matter of "significant scientific agreement" as a standard in court cases. The vague term allows aspirin

makers, for example, to claim benefits for heart attack victims but does not allow the same claims for vitamin E or specific herbal extracts.

Citizens for Health recently conducted a significant "write to know" campaign against FDA abuses. Anyone may call and learn about this activist group at 1-800-357-2211.

For audio tapes of RFA programs call 1-888-31-RADIO (1-868-317-2346) to order with a credit card. Both hours \$15, which includes shipping and handling.

RFA is carried by two short-wave stations. WHRA on 7.385 and WGTG over 5.085 MHz and 6.890. To participate as a caller to the show, the Orbit-7 network call-in number is 1-888-ON RADIO (1-888-667-2346).

Sweatshops Reemerge in Garment Industry

Foreign workers living as slaves produce apparel labeled "Made in the USA."

EXCLUSIVE TO THE SPOTLIGHT

BY L.A. JASPER

The Department of Labor estimates that more than half of this country's 22,000 sewing shops violate minimum wage and overtime laws.

Sweatshop Watch is a coalition of labor and civil rights groups committed to eliminating the exploitation that occurs in sweatshops in the United States. It reports that "many of these workers labor in dangerous conditions including blocked fire exits, unsanitary bathrooms and violation of health laws. Most of these garment workers are immigrant women who face verbal and physical abuse and are intimidated from speaking up for themselves for fear of losing their job or being deported."

In a world of free trade, real wages of blue-collar U.S. workers have been declining due to imports from low-wage countries. Garment factories in the United States have found that it is no longer cost effective to rely so heavily on domestic labor. Manufacturers often look for subcontractors in other countries where labor and operating costs are substantially lower. In the global market of free trade, manufacturers reap the benefits of the lowest labor costs by exploiting workers world-wide.

Brand-name manufacturers, J.C. Penny and Nike for example, contract with overseas sewing shops, some of them are in Vietnam where workers average 12 cents per hour, and others in Honduras where workers average 60 cents per hour. Workers labor for 60 hours a week without overtime.

CHARGES FILED

Young girls work in a Dhaka garment factory. The garment industry earns impoverished Bangladesh some \$2.5 billion each year. Third World workers are often paid pennies an hour and are forced to work 12 or 14 hour shifts. Obviously, U.S. labor can't compete with these low wages and lack of benefits. Washington is worried that sweatshops are being created as the U.S. garment industry attempts to contend with the foreign competition.

owned factories operating on U.S. soil.

Companies including The Gap, The Limited, J.C. Penny, May Company, Sears, Wal-Mart and Tommy Hilfiger are among the 18 companies that have been accused of violating federal law by engaging in a "racketeering conspiracy" using indentured labor to produce clothing on the island of Saipan.

American consumers are deceived into believing they have purchased a product made by American workers protected by the U.S. labor laws which are supposed to guarantee workers a decent wage and a safe work place.

unsafe and hostile conditions. They were paid little if anything.

U.S. Secretary of Labor Alexis M. Herman said that "in this era of concern for civility, decency and family values, sweatshops are repugnant to our moral core."

Mrs. Herman stressed that "sweatshops reflect too vividly how we as a nation feel about the weakest among us." She reported that during the Clinton administration, the Department of Labor recovered \$14.1 million in back wages that nearly 45,000 U.S. garment workers were denied.

Jan. 6, 1999. It is an amendment to the Fair Labor Standards Act (FLSA) of 1938. This bill, outlined by Clay, would help impede the re-emergence of sweatshops in the apparel industry by establishing liability on the part of manufacturers who contract with sweatshop operators for violations of the FLSA.

Clay also said the Stop Sweatshops Act would strengthen the ability of the Department of Labor to enforce the labor standards law and would improve the ability for garment workers to claim compensation where violations occur. The amended act would

In a world of free trade, real wages of blue-collar U.S. workers have been declining due to imports from low-wage countries. Garment factories in the United States have found that it is no longer cost effective to rely so heavily on domestic labor. Manufacturers often look for subcontractors in other countries where labor and operating costs are substantially lower. In the global market of free trade, manufacturers reap the benefits of the lowest labor costs by exploiting workers world-wide.

Brand-name manufacturers, J.C. Penny and Nike for example, contract with overseas sewing shops, some of them are in Vietnam where workers average 12 cents per hour, and others in Honduras where workers average 60 cents per hour. Workers labor for 60 hours a week without overtime.

CHARGES FILED

For the first time, litigation was filed in California and Saipan (a U.S. Commonwealth in the South Pacific) against high-profile American clothing manufacturers and retailers who allegedly exploit workers in foreign-

Young girls work in a Dhaka garment factory. The garment industry earns impoverished Bangladesh some \$2.5 billion each year. Third World workers are often paid pennies an hour and are forced to work 12 or 14 hour shifts. Obviously, U.S. labor can't compete with these low wages and lack of benefits. Washington is worried that sweatshops are being created as the U.S. garment industry attempts to contend with the foreign competition.

owned factories operating on U.S. soil.

Companies including The Gap, The Limited, J.C. Penny, May Company, Sears, Wal-Mart and Tommy Hilfiger are among the 18 companies that have been accused of violating federal law by engaging in a "racketeering conspiracy" using indentured labor to produce clothing on the island of Saipan.

American consumers are deceived into believing they have purchased a product made by American workers protected by the U.S. labor laws which are supposed to guarantee workers a decent wage and a safe work place.

The lawsuit was filed on behalf of more than 50,000 workers from China, the Philippines, Bangladesh and Thailand who worked in Saipan, which attorney Al Meyerhoff said was "America's worst sweatshop." These workers were promised high pay and quality work in the United States. Instead, they found themselves working up to 12 hours a day seven days a week in

unsafe and hostile conditions. They were paid little if anything.

U.S. Secretary of Labor Alexis M. Herman said that "in this era of concern for civility, decency and family values, sweatshops are repugnant to our moral core."

Mrs. Herman stressed that "sweatshops reflect too vividly how we as a nation feel about the weakest among us." She reported that during the Clinton administration, the Department of Labor recovered \$14.1 million in back wages that nearly 45,000 U.S. garment workers were denied.

The Labor Department has worked in collaboration with apparel manufacturers, contractors and unions to set goals for a long-term solution to the sweatshop problems in the industry.

BILL INTRODUCED

Congress is also concerned about the problem.

"We cannot continue to allow unscrupulous employers to drive responsible employers out of business. Nor should we continue to tolerate working conditions that undermine rather than promote the well-being of workers," said Rep. William Clay (D-Mo).

Clay introduced the Stop Sweatshops Act legislation to Congress on

Jan. 6, 1999. It is an amendment to the Fair Labor Standards Act (FLSA) of 1938. This bill, outlined by Clay, would help impede the re-emergence of sweatshops in the apparel industry by establishing liability on the part of manufacturers who contract with sweatshop operators for violations of the FLSA.

Clay also said the Stop Sweatshops Act would strengthen the ability of the Department of Labor to enforce the labor standards law and would improve the ability for garment workers to claim compensation where violations occur. The amended act would enforce civil penalties for violations of labor standard laws, which would encourage manufacturers to deal with reputable contractors.

These civil penalties, under the 1999 proposed Stop Sweatshops Act are designed to help enforce fair competition and would promote working conditions conducive to the well-being of the workers in the garment industry both in the United States and abroad.

Mrs. Herman said that "enforcement of labor standards laws and the successful eradicating of sweatshops will not be possible without the active participation of retailers, manufacturers, investors, consumers, labor unions and public interest groups."

Battle for Free Trade Post Heating Up;

The World Trade Organization, the foundation for the "New World Order," is suffering internal turmoil.

EXCLUSIVE TO THE SPOTLIGHT

BY MIKHAIL ROSTARCHUK

Diplomats from four countries are vying to become the next head of the Geneva-based World Trade Organization (WTO). Long-term economic strains around this international body make changing leadership difficult.

Roy MacLaren, a former trade minister of Canada; Hassan Abouyoub, Morocco's trade envoy; Mike Moore, former prime minister and trade minister of New Zealand; and Suphachai Phanitchaphak, a deputy prime minister of Thailand, are seeking the WTO post.

The job of the WTO director-general is lucrative. It offers a six-figure salary and plush benefits, including a gorgeous view of Lake Geneva, a hefty entertainment allowance and a chauffeur-driven Lexus. But at the same time the chief of WTO must be a successful evangelist, catalyst, peacemaker and administrator who from time to time gets a cream pie thrown into his face.

(The present WTO head, Italian Renato Ruggiero, was attacked with cream pies by environmentalists who claimed he is a turtle killer. They protested a ruling by the organization, they say, which undercuts laws protecting endangered species.)

World Bank President James Wolfensohn (left) and Michel Camdessus, Managing Director of the International Monetary Fund (right) talk with Renato Ruggiero, president of the World Trade Organization, prior to a World Bank's Development Committee meeting in Washington.

The wrangling around the chairmanship stems from many factors. One is that member countries must make the decision by consensus, and right now even trading allies are feuding.

The United States and the European Union, the world's trade giants, are distracted by skirmishing over banana imports. Asian countries are leaning

toward protectionist measures to survive difficult economic times. But the main negative factor is the natural contradiction among the fundamental

national interests of each sovereign state. This is making the attempts to establish the New World Order, at least in international trade, elusive.

Internationalists Reporting

As if the WTO, NATO, LOST etc. were not enough, another international regulatory agency is looking for control of your life. Now the FATF wants to know where your money comes from and where it goes.

BY L.A. JASPER

The Financial Action Task Force (FATF) ministers claim "money laundering poses a serious threat to democracy and to the soundness of the financial systems of all countries, and it is among the most important issues currently facing the financial world."

The FATF is the international outfit behind the "know your customer" banking regulation proposal (See SPOTLIGHT, Jan. 25).

The FATF is an international body made up of 26 countries which include the major financial powers of Europe,

North America and Asia. It was established by the G-7 Summit in Paris in 1989. The FATF was designed to promote policies to combat money laundering by bringing together policy-making legal power, financial and law enforcement experts. FATF defines money laundering as the processing of criminal proceeds in order to disguise their illegal origins.

The report prepared in 1990 by the FATF, which was endorsed by the ministers, outlines a five-year-plan from 1999-2004 to spread the anti-money laundering plan to all continents and

ORDER AND NOTICE FOR HEARING ON DISCLOSURE STATEMENT

TO THE DEBTOR, THE CREDITORS AND OTHER PARTIES OF INTEREST:

A Disclosure Statement and a plan under Chapter 11 have been filed by Liberty Lobby, Inc. on 01/22/99.

IT IS ORDERED AND NOTICE IS GIVEN THAT:

1. The hearing to consider the approval of the disclosure statement shall be held on the following:

Date: 1/27/99
Time: 9:30 a.m.
Location: Courtroom 24, U.S. Courthouse

2. All objections to the disclosure statement shall be filed and served pursuant to Rule 2003(a) prior to the hearing.

3. At least 28 days prior to the above hearing date, the Debtor of the plan shall mail a copy of this Order and Notice to all creditors, equity holders, and other parties in interest and shall transmit the disclosure statement and plan to the Debtor, Trustee, each committee appointed pursuant to 11 U.S.C. Section 1102, any creditors listed as holding claims entitled to priority under 11 U.S.C. Section 507(a)(7), the Securities and Exchange Commission, and any party in interest who has requested or requests in writing a copy of the disclosure statement and plan. A certificate of mailing shall be filed within ten (10) days from the date of this order.

4. Requests for copies of the disclosure statement and plan shall be mailed to: Paul D. Dearls, Esq., 1750 Rhode Island Ave., N.W., Suite 505, Washington, DC 20036.

EU, U.S. Hold Key Cards Close to Vest

This is evident in an interim report prepared by two top trade diplomats of WTO after their consultations with the country members to rank the contenders. The report reflected support for Suphachai. The French and African countries rallied to the support of Abouyoub, who speaks French. The United States and the European Union have not declared a preference. Their views are crucial because they are involved in the largest number of cases before the organization.

The European countries did "not have a single choice" so far, said Roderick Abbot, the European Commission's representative, adding that Europeans would have to consult with their U.S. counterparts to avoid a replay of the 1995 selection tempest.

The first selection in 1995 turned into a nine-month marathon of bitter quarrels between the world trade superpowers—the United States and the EU.

The EU and the majority of WTO members supported the candidacy of Ruggiero, former trade minister for Italy. The White House was backing former president Carlos Salinas de Gortari of Mexico. Salinas has been tainted

by the financial crisis in Mexico, according to *The Financial Times*.

The deadlock continued until Salinas withdrew from consideration after the arrest of his brother, Raul Salinas, on murder charges. On Jan. 21, Raul Salinas was convicted of murder. The brothers have long been suspected of being involved in corruption.

Raul Salinas is also under investigation on forgery and laundering drug money charges. The U.S. General Accounting Office recently issued a report saying Citibank in New York violated its own regulations in helping Raul Salinas transfer millions of dollars from Mexico via New York to foreign banks.

Carlos is in a self-imposed exile in Ireland, which has no extradition treaty with Mexico.

Thus far, divisions within the Clinton administration have delayed the selection of a preferred candidate to head the WTO.

Behind the scenes, Third World countries—about 80 percent of the group's membership—insist that it is time for one of their own to head the WTO. These nations say that they also want to share the benefits of free trade.

... Possible choice.

CARLOS SALINAS
... Clinton's first pick.

"It's our turn," said Munir Akram, Pakistan's trade envoy. "We want somebody who can stand up to the big boys."

Moore has advocated free agricultural trade and will probably not win support from Europeans, who heavily subsidize farmers.

Suphachai, whose country is also an exporter of agricultural goods, has similar views but is less aggressive. However, he is advocating a two-tiered membership structure of WTO that

would make it easier for Third World countries to qualify for the organization. That approach is rejected by countries that have overcome protectionist domestic interests to win admission to the globalist's trade club.

This version of free trade means opening America's borders to cheap imports and placing U.S. workers at risk.

regions of the globe. Other issues the FATF will be concentrating on for the next five years are to improve the enforcement of FATF members and to create a more effective way to review money laundering trends in order to design productive countermeasures.

The recommended banking practices outlined by the FATF are intended to assist bank management with fundamental policies and procedures that should be enforced within their financial institutions. Currently FATF members are trying to decide if the proposed anti-money laundering regulations should be mandatory for all financial institutions.

The FATF recommends that each country take immediate steps to implement programs that would aid to abolish money laundering activity. The FATF says "anti-money laundering programs are specified to increase multi-lateral cooperation and mutual legal assistance in money laundering investigations and prosecutions of such illegal transactions."

Behind the scenes, Third World countries—about 80 percent of the group's membership—insist that it is time for one of their own to head the WTO. These nations say that they also want to share the benefits of free trade.

The FATF reports that considerable progress has been made since the Task Force began in 1989; however it stresses the need for continued mobilization at the international level for efforts against anti-money laundering to be effective.

Toxic Avengers Fight Corporate Criminals

Lawyer Jan Schlichtmann (left) poses with actor John Travolta (right) before the premiere of the film *A Civil Action* in Boston, Jan. 6. Schlichtmann is the real life lawyer played by Travolta in the movie.

Hollywood has a warning for anyone who wants to take on Big Business.

EXCLUSIVE TO THE SPOTLIGHT

By URI DOWBENKO

When multinational conglomerates W.R. Grace and Beatrice Foods are sued on behalf of parents who have lost their children to leukemia, the outcome is realistically brutal.

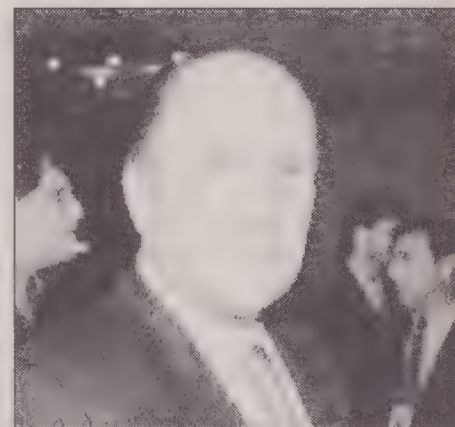

Based on a real-life lawsuit, *A Civil Action* was adapted from a 500-page non-fiction bestseller by Jonathan Harr. It's the anatomy of an environmental crime. Writer-director Steven Zaillian, who also wrote the screenplay for *Schindler's List* and directed *Searching for Bobby Fischer*, has created a powerful drama about human loss and suffering—and incidentally, the absence of justice in America.

Jan Schlichtmann (John Travolta) is a hotshot personal injury lawyer. He and his partners Kevin Conway (Tony Shalhoub) and James Gordon (William H. Macy) own a law firm in Boston. In a voiceover, Schlichtmann admits that "personal injury lawyers have a bad reputation. They call us ambulance chasers, bottom feeders . . ."

Then a group of parents in the working-class town of Woburn, Mass. approach him for help. It's a complex environmental case, but it's essentially about toxic dumping. The parents suspect—but can't prove—chemicals have poisoned the town's water supply. "Twelve deaths over 15 years. Eight of the children had leukemia. They think it has to do with the drinking water."

The contaminants? "Trichloroethylene which FDA describes as a probable carcinogen." The problem is that "to prove it you need new medical evidence."

After the initial meeting with the parents, the attorney declines. Anne Ander-

ROBERT DUVAL
... Plays a bad guy.

son (Kathleen Quinlan) tells him, "We don't want money. We want to know what happened." She knows that no amount of money will bring back her child, but she pleads for some kind of accountability. "We just want someone to say they're sorry," she says.

Schlichtmann replies, "You want an apology. Who will apologize to you and pay me?" He refuses, driving off in his black topcoat in his expensive sportscar.

After he's stopped for a speeding ticket, he takes a look at the river. He walks down to the railroad tracks and sees a cargo container labeled "Grace." Then he sees some effluent pouring out of a pipe into the river. The culprit tannery happens to be a subsidiary of Beatrice Foods.

"This is a gold mine," he tells his partners. "You almost let it get away," he chides them. Later, true to his ambulance-chasing self, he says "I can appreciate the theatrical value of several dead

WHAT'S THE GOVERNMENT

Lawyer Jan Schlichtmann (left) poses with actor John Travolta (right) before the premiere of the film *A Civil Action* in Boston, Jan. 6. Schlichtmann is the real life lawyer played by Travolta in the movie.

WHAT'S THE GOVERNMENT TRYING TO HIDE?

Underground Bases? Mind Control? Strange Devices?

Underground Bases and Tunnels, by Richard Sauder Ph.D., is a disturbing book, revealing a massive level of secret underground engineering activity conducted by the federal government. There can be no serious question that gigantic, subsurface construction projects are under way in many parts of the country. Why? How? Find out in this fascinating book! Softcover, 142 pages, \$14.95.

Kundalini Tales is Sauder's follow-up to *Underground Bases*. This book is *not* for skeptics. A fascinating tour of Sauder's personal experiences, coupled with evidence of government experimentation in "out-of-the-body" experiences, psychic phenomena, etc., Sauder provides firm evidence of actual technology designed for the purpose of electronic mind control and manipulation. Softcover, 224 pages, \$16.95.

Order both Sauder books for the low combo price of \$29—a 14% savings!

The Only Nutritional Encyclopedia You'll Ever Need!

Veteran health author Maureen Salaman uses research studies to prove that nutritional supplementation can be as therapeutic as pharmaceuticals, its only side-effect being vibrant health. Every page in this book reflects Maureen's 30 years of close work with researchers and physicians versed in nutrition. Her life experiences and travels provide

fascinating stories and anecdotes that bring you natural health breakthroughs and revelations in a very enjoyable and readable fashion. This book is the only definitive guide for nutritional information that you will ever need—the best encyclopedia and reference book of the decade.

You will no longer need to go from book to book, author to author—you'll find all the information you need in *All Your Health Questions Answered Naturally!* Softcover, 1248 pages, \$35. To order use the handy coupon on page 27 of this issue of *The SPOTLIGHT* or call 1-800-522-6292 and charge to Visa or MasterCard.

on the Movie Screen

kids." He's found his "deep pockets" adversary. "Beatrice and Grace made \$634 million net," he later says.

Meanwhile, the opposing lawyer Jerome Facher (Robert Duvall) vows that no parents will ever reach the courtroom because their testimony would be so devastating. His eccentricities hide a cunning legal mind that knows the odds and tactics that are necessary to win.

The voiceover by Travolta continues, "It begins with a declaration of war—the complaint." Then we see the actual lawsuit. Cause of Action. Wrongful Death. Negligence. Pain and Suffering. "We have to show how toxic solvents leaked into the water supply," he says. And so the seemingly endless depositions begin.

After spending millions of dollars preparing the case, hiring consultants, engineers, geologists and doctors, Schlichtmann's firm is running out of time and money.

Near the end, awaiting the jury's verdict, Travolta and Duvall meet in the hallway in a seemingly casual encounter. The case is reduced to a high-stakes poker game that doesn't even provide the facade of justice. Duvall mocks Travolta about his search for truth saying, "If you're looking for truth, Jan, look where

it is, at the bottom of the bottomless pit." Truth and justice are simply not the products in a court of law.

Another highlight of the film is the darkly comic scene with the Grace vice president (Sidney Pollack), who tells him, "Let's be honest. I can afford to pay..." then proceeds to tell him why he won't because every other lawyer will perceive weakness and sue him for other damages.

The case moves on, eating up more time and money, until it's finally sabotaged by Judge Skinner (John Lithgow) whose actions are evidence that there must be a ring of fire in Dante's *Inferno* especially reserved for judges.

The postscript reads that W.R. Grace was indicted and eventually paid \$69.4 million in cleanup costs. But in this David vs. Goliath legal battle, who wants to see David get stomped?

So why would anyone want to make a movie like *A Civil Action*? Perhaps to show the futility of tackling a corporate giant. The implicit message of this movie, however, is stark and undeniable. If you take on big business in a court of law, don't expect to win. Don't even expect to survive.

LIBERTY TRUST offers coin-sized pure .999 silver medallions

From Liberty Library ... BOOKS TO STIMULATE YOUR MIND ...

Disney: The Mouse Betrayed—For fifty years, the Walt Disney Company was an icon of wholesome family entertainment. Now Disney is under attack by family and religious organizations. Are the complaints hysterical censorship, or has Disney really lost its way? Hardback, 374 pages, \$27.

Education Reform: The Silent Weapon—Many worthy books have been written on the misdeeds of America's public schools. In effect, our public schools have become nothing more than brainwashing centers, corrupting the minds of our children against traditional values and for the twisted agenda of the masters of the global plantation. Author Shirley Basarab outlines the totally alien concepts that have so insidiously been woven into a tapestry of mind control through the medium of the public schools. Softcover, 354 pages, \$21.95, BOP \$16.95.

Year of The Rat: How Bill Clinton Compromised U.S. Security for Chinese Cash—At stake are key national secrets. Over and over again Bill Clinton and Al Gore have acted recklessly and negligently, allowing dangerous outsiders access to our most sensitive political, military and economic secrets. Any number of Red Chinese arms dealers, spies, narcotics traffickers, gangsters, pimps, mass murderers and Chicoms undesirables have paraded through the White House and greased the right palms to peddle their influence to the detriment of our nation. Hardback, 275 pages, \$27.

Reminiscences of Fort Sumter and Moultrie—Abner Doubleday, a Union Major and the inventor of baseball, gives you his eyewitness account of the shelling of Forts Sumter and Moultrie in 1861. A budding conspiracy theorist at the time of the attack, Doubleday gives you fascinating insights into Lincoln's manipulation of the Sumter attack (much as the conniving FDR did at Pearl Harbor). Get a fresh perspective on the bloodiest era in American history from one of the combatants. Hardback, 184 pages, \$24.

The Jefferson Scandals—Largely forgotten charges that Thomas Jefferson had a beautiful light-skinned slave as his mistress for several decades have been resurrected. However, Virginus Dabney laid this bogus theory to rest years ago in this comprehensive and well written volume. Get the truth about the Jefferson "scandal" without all the hype and twisted lies. Softcover, 154 pages, \$15.

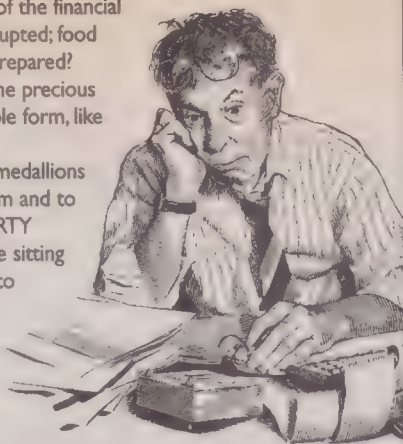

The 15 Biggest Lies In Politics—Can the budget really be balanced? Will social security survive? How about Medicare? This book will definitely assess the deference between what we've been told and what's really going on. There are no sacred cows in

show the utility of tackling a corporate giant. The implicit message of this movie, however, is stark and undeniable. If you take on big business in a court of law, don't expect to win. Don't even expect to survive.

Silver: Your Protection Against Y2K Disaster?

Right now LIBERTY TRUST's one Troy ounce Jefferson Medallions are just \$8.95 each—a bargain for a lifetime hedge against economic and political uncertainty. Call toll free 1-800-522-6292 and charge your medallions today.

Professor Under Fire for 'Threats'

The fight to defend the First Amendment has taken an unusual twist. Former foes are now joining forces much to the dismay of the enemies of free speech.

EXCLUSIVE TO THE SPOTLIGHT

BY WILLIAM FRANCIS

SPOTLIGHT correspondent Michael Collins Piper has come to the defense of the First Amendment rights of a California college professor who went out of his way to suppress Piper's First Amendment rights last year.

Professor Roy Bauer, a philosophy instructor at Irvine Valley College in Orange County, Calif., played a major role in scuttling a JFK assassination seminar where Piper was scheduled to speak. Piper was invited in the summer of 1997 to speak about his JFK assassination blockbuster, *Final Judgment*, by the South Orange County Community College District (SOCCCD).

Piper is taking a stand in opposition to a move by college officials that Bauer contends is a violation of his own First Amendment rights.

Bauer, a quirky academic, won national headlines fronting for an Anti-Defamation League (ADL) public relations campaign against Piper.

Ironically, Bauer is under fire from college officials who have publicly suggested that Bauer's monthly campus newsletters, which are satirical in nature, contain "verbal threats and violent overtones."

The college district chancellor, Cedric Sampson, ordered Bauer to attend psychiatric-style "anger-management counseling" courses. Bauer has responded, saying, "This is retaliation. I think they are just trying to circumvent the First Amendment and silence me . . . and they think they can do it if they can tag me with violence in the

disciplinary action, according to a report by *The Orange County Register's* highly regarded education editor, Kimberly Kindy.

In the meantime, Bauer has filed a lawsuit against the district saying that his First Amendment rights are being violated. Piper has announced that he will be filing an *amicus curiae* (friend of the court) brief on Bauer's behalf.

"I've read some of Roy's work," said Piper. "His writings are quite scrappy and perhaps a bit bizarre. Roy is truly an eccentric—the proverbial 'nutty professor'—but to suggest that he has some sort of mental problem sounds like something right out of the KGB handbook.

"And for that matter," added Piper,

"There are some real First Amendment concerns here, and I'm determined to do everything in my power to protect Roy Bauer's First Amendment rights."

—MICHAEL COLLINS PIPER

"the ADL itself has been suggesting for years that anyone who criticizes Israel is 'anti-Semitic' and that this is a form of mental illness. In fact, an entire, rather peculiar book has been devoted to that topic."

For his own part, Bauer says that his writings are political satire in the tradition of Jonathan Swift. Piper agrees, noting that "hard-hitting political commentary and criticism are American

abuse (even abuse of Mencken himself) because, as Mencken put it, 'the public likes abuse.'

"So Roy is following in a tried-and-true American tradition. I'm sorry that the college officials don't see it that way. There are some real First Amendment concerns here, and I'm determined to do everything in my power to protect Roy Bauer's First Amendment rights."

Piper has urged SOCCCD chancellor Cedric Sampson and the SOCCCD board of trustees to convene a First Amendment Forum in the college district, which is open to the public, where both Piper and Bauer will have the opportunity to speak without being censored.

H.L. MENCKEN
... Public likes abuse.

Crimes & Mercies

The Fate of German

More than 9 million Germans died as a result of Allied starvation and expulsion in the first five years after the Second World War—a total far in excess of the figures actually reported. That these deaths occurred at all is still being concealed and denied, especially by Western governments who continue to refuse to admit the truth.

Following the world-wide success of his earlier book, *Other Losses*, which documented the deaths of about 1 million Axis prisoners in Allied internment camps after the war, James Bacque flew to Moscow to work in the newly opened KGB archives. The first English-speaking writer to gain access to these files, he found new proof of the genocide of German prisoners. He is also the first writer to publish recently declassified information from the renowned Hoover Institute in California. Some other important American papers were specially declassified for this book.

Under the Morgenthau Plan and its successors, Germans were prevented from growing sufficient food to feed themselves, goods were stolen from them at levels far beyond the war reparations agreed to

to a move by college officials that Bauer contends is a violation of his own First Amendment rights.

Two former critics of one another are now allied in a fight for the First Amendment right of free speech.

ROY BAUER

Crimes & Mercies

The Fate of German Civilians Under Allied Occupation, 1944-1950

By James Bacque,
author of *Other Losses*

sion in the first five years after the Second World War—a total far in excess of the figures actually reported. That these deaths occurred at all is still being concealed and denied, especially by Western governments who continue to refuse to admit the truth.

Following the world-wide success of his earlier book, *Other Losses*, which documented the deaths of about 1 million Axis prisoners in Allied internment camps after the war, James Bacque flew to Moscow to work in the newly opened KGB archives. The first English-speaking writer to gain access to these files, he found new proof of the genocide of German prisoners. He is also the first writer to publish recently declassified information from the renowned Hoover Institute in California. Some other important American papers were specially declassified for this book.

Under the Morgenthau Plan and its successors, Germans were prevented from growing sufficient food to feed themselves, goods were stolen from them at levels far beyond the war reparations agreed to between the Allies, and private charity was forbidden.

And in May 1945, General Eisenhower—who had publicly promised to abide by the Geneva Convention—illegally forbade German civilians to take food to prisoners starving to death in American camps. He threatened the death penalty for any GI found feeding prisoners.

One quarter of the country was annexed, and about 15 million people expelled in the largest acts of ethnic cleansing the world has ever known. Over 2 million of these people died either on the road or in concentration camps in Poland and elsewhere. Children were enslaved for years in these camps, and the majority of them also died.

Crimes and Mercies fully exposes the Allies' hypocrisy concerning the Geneva Convention, genocide, racism and more. Find out who planned this "revenge" on the German population, and why, in this gripping account of the most atrocious holocaust the western world has ever known.

Is Your Hair Turning Gray? Are Bald Spots Visible?

***Our Original, 100% Natural, Chinese Hair Formula Can Help
 Restore Your Hair's Original Color and Fullness—Guaranteed!***

He Shou Wu

literally means "the man with dark hair" in Chinese

My mother lives in New Mexico and visits me and my family in Connecticut once a year. This year when she saw me, she just stared at my hair.

Did you dye your hair? she asked. Your hair is so dark and full . . . it's never been that dark. You look so much younger.

Do you look older than you are?

Is this due to your hair?

Do you want to appear younger?

You've heard about Rogaine, Minoxidil and Propecia. They grow hair . . . thin, weak baby fine hair . . . but they are expensive plus they have side effects. You've heard the TV commercials.

Do you want to grow thick, adult hair? Do you want the feel and shine of real hair? Do you want hair you can brush?

He Shou Wu is not a shampoo, rinse, tonic, spray or lotion. It won't rub off . . . and with continued use, it will support your body's natural function of growing hair in its natural color, texture and fullness.

Both men and women can use He Shou Wu and discover for themselves the amazing Chinese secret for

thicker, darker, fuller, more lustrous looking hair. A full head of beautiful dark hair benefits you with a more youthful appearance.

Our original Chinese formula uses only the finest 12 to 1 pure extracts available.

Results are guaranteed or return the unused tablets and

container for a full refund of purchase price (less P&H). To order send check/MO with the order form to address below. All orders sent First Class Mail. Call toll free **1-800-770-1155** for VISA, Discover, MasterCard orders. *He Shou Wu has alleged hair darkening and growth properties*

Our Articles Generate Responses

WHERE'S WEBER?

In your issue of Jan. 18, "News You May Have Missed," you mention Scientologists Tom Marcellus and Greg Raven as running the so-called Institute for Historical Review. What ever happened to Mark Weber? Is he a Scientologist?

HOWARD CARBON

Phoenix, Arizona

(Mark Weber is still involved with the IHR and presumably will be until the money runs out. Although he identifies himself as the "Secretary-Treasurer," he does what Raven tells him to do. As for his religion, he may be a "convert" to Scientology by now. Previously Weber identified himself as a Catholic, although his sister is Jewish and lives in an Israeli commune. In the past he has described himself as a Marxist and then as a National Socialist. But what his latest incarnation is we do not know.—Ed.)

CULTURAL COMMUNISM

The topic of Cultural Communism in the center pages of the Jan. 11 edition was tremendously inter-

esting and enlightening. This program of political correctness was also done many years before when Mohammedans conquered part of Europe.

YAKOF MIER

Sioux City, Iowa

ON LATE FEES

Your article "Big Corporations are Taking You to the Bank," in the Jan. 18 issue, struck a vibrant chord with me. I had a problem with Capital One charging me late fees, even though I was sending my payments at least two weeks before the due date. Their response when I questioned the "Late Penalty" of \$30 was that "it must have been lost in the mail." I now send the payment three weeks in advance, and if it ever gets "lost" again, I will get the Postmaster General involved.

As far as all the other corporate fraud we see daily, I would like to remind everyone of the song brought to us in the 1980s by the Alan Parson Project. The refrain goes like this:

I am the eye in they sky, looking at you, I can read your mind

I am the maker of the rules, dealing with fools, I can cheat you blind ...

CLINT KRIESE

Phoenix, Arizona

CONSTITUTION LIVES

I appreciate the article on censure in the Jan. 11 paper. We need more explanations regarding our rights under the Constitution, i.e., Bill of Attainder. Doug Jory's letter on Y2K in the same edition shows our need: "To be free and ignorant never was and never will be."

I would appreciate more articles as to recall, duty of a grand jury etc.

Impeachment is a very expensive joke; those judging are of the same character as the accused.

GORDON SPHALER

Cedar Key, Florida

The conviction and removal from office of William Jefferson Clinton is mandatory to protect our Constitution and preserve the rule of law.

Clinton is a man of no principles, no character and no conscience. The trial in the Senate is about truth and justice. Either the truth is the most valuable commodity in our

legal system—or it is worthless.

I am appalled that some Democrats find lying under oath is acceptable behavior.

At some point we have to stop worrying about ourselves and start worrying about our nation. What is more important: to protect Bill Clinton or to protect our Constitution?

DOROTHY Q. BURSEY

Sanford, North Carolina

PRESIDENTIAL POLITICS

Poor old Al "the Ozone Man" Gore is in for a real surprise. He thinks he has the Democratic presidential nomination safely in his pocket, but he just isn't "funky" enough for the new breed liberals. They prefer Larry "the King of Smut" Flynt and James "the Junk Yard Dog" Carville as their standard bearers.

NANCY MERLE

Auburn, California

YOU'RE WELCOME

Thank you all for the great job you are doing for us. Special thanks to Vince Ryan, Anne Cronin and Lois Hodges. To Willis and Elisabeth Carto, a special thanks for carrying the ball all these years and for having started the game in the beginning.

VERNE BALLANTYNE

Roswell, New Mexico

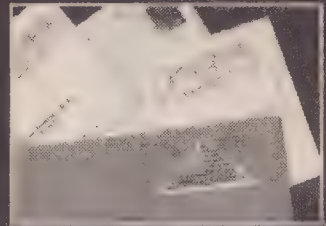

SPOTLIGHT SCOOP

On Jan. 3, a BBC announcer said, "It has been reported that President Clinton fathered a mulatto boy by a black prostitute. Clinton denied it." The SPOTLIGHT scooped the world on this—you said it weeks ago.

JOHN BAKOS

Oakland Park, Florida

LETTERS

TO THE EDITOR

kirchen deliberated "five months" before extending Walendy's sentence an additional 14 months for his crime of freedom of speech. Not true! He "deliberated" five minutes! This is "justice" in democratic Germany.

DAVID McMAHON

Jersey City, New Jersey

ON POLLS

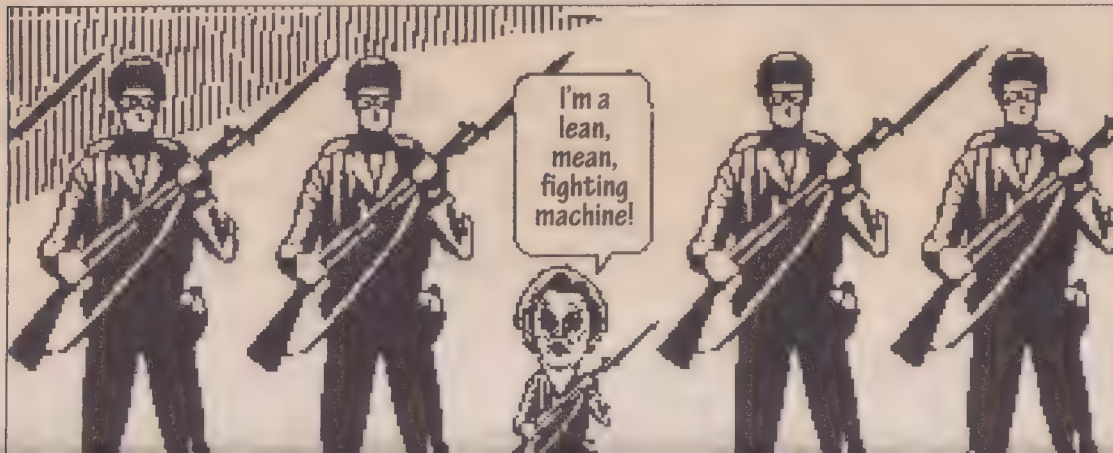

I find that the so-called 75 percent approval rate of the present person in the White House is absolutely outrageous. Both senators from my state say that 80 percent of their mail and e-mail says to try that man and fire him.

HAL GROSS

via e-mail

TOO FAR

In your editorial in the Dec. 28 issue of The SPOTLIGHT, you refer to our Secretary of State as the "mini-skirted dignitary Missy Halbright." Any of us have the right to disagree with her policies, and even her attire, but calling her "Missy Halbright" is going too far. Many persons in our times show a disappointing lack of respect for others. Let's make sure that we don't have to number ourselves among them. Also, I think statements such as yours could easily reduce your own credibility in the eyes of many. Your

LIBERTY LIBRARY 300 Independence Ave. SE, Washington, D.C. 20003

“Falsification of history has done more to impede human development than any one thing known to mankind.”

How much of what we've read in our daily newspapers and in our history books is really true? Here are just a few examples of historical “facts” (all major news events at the time) that have recently been revised in light of new information . . .

THE ATTACK ON PEARL HARBOR WAS A “SURPRISE.”

Now, big name historians acknowledge both FDR and Winston Churchill knew the attack was coming but did nothing to stop it, confident the disaster would force America to go to war.

A “LONE ASSASSIN” KILLED JOHN F. KENNEDY.

Thirty years later, few people anywhere believe the Warren Commission. And there's unsettling new evidence the JFK conspiracy was even bigger than some of the most vociferous Warren critics imagined.

RICHARD NIXON WAS “RESPONSIBLE” FOR WATERGATE.

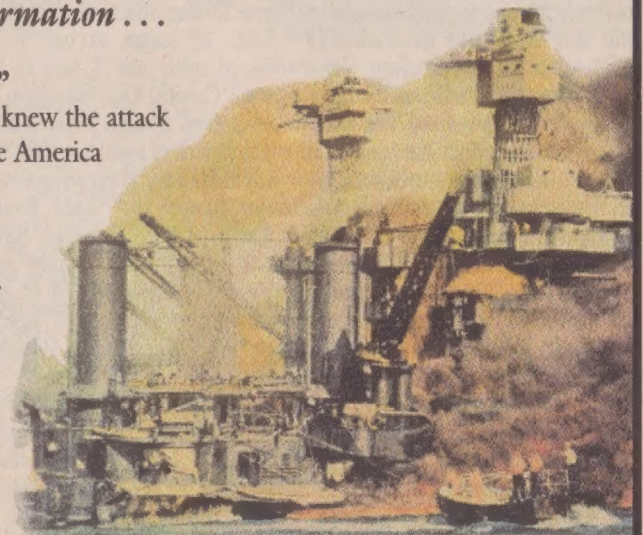

Twenty years afterward, recent discoveries suggest that Richard Nixon was more a victim than the perpetrator of the Watergate affair.

THE LUSITANIA WAS “AN UNARMED PASSENGER LINER.”

We now know the truth about the British liner. It probably would have survived the German torpedo if it had not been carrying an explosive, illegal cargo.

These are a few instances of major events of the past that have been subjected to what Rousseau bluntly described as “falsification of history.” These events altered the course of history—yet, in each case the “official” version of what happened wasn't even true . . . There are literally hundreds—probably thousands—of other examples. *Now here's something that's even harder to believe . . .*

There's ONLY ONE national weekly newspaper in America that brings you today's news that's being censored by the major media in this country . . .

And often, it's news that appears nowhere except in The SPOTLIGHT—America's #1 independent news source.

The SPOTLIGHT is written from a pro-American point of view. We are not beholden to any powerful special interests in Washington, on Wall Street or anywhere else on the globe. We're standing up to the promoters of "political correctness"—we call it what it is: Cultural Communism—and the multicultural madness that prevails in the

A painting of a harbor scene with several ships docked at a quay. The scene is rendered in a dark, moody style with a palette dominated by browns, greys, and muted blues. The ships are silhouetted against a slightly lighter background, and the water reflects the ambient light. The overall composition is horizontal, emphasizing the length of the quay and the line of ships.

We now know the truth about the British liner. It probably would have survived the German torpedo if it had not been carrying an explosive, illegal cargo.

Timothy McVeigh has been given the death sentence for his role in the OK bombing. His case is presently under appeal.

ened me over a long list of things that I had found out about. For instance, FBI agents were not in the Murrah building at the time of the bombing. Also, Judge Wayne Alley had prior warning of a bombing attempt. My wife has been repeatedly threatened by the wives of FBI agents. Carlisle came to my house and said as he was going to put in a report that I was "lying."

Both you and your wife have been threatened because of this knowledge. Is that one reason why you have been so outspoken about all of this?

Briley: The appropriate Senate and House committees know about this. Both of Oklahoma's senators and my congressman (Istook) know about it. Yet, so far, nothing has been done. Now, there are two other officials are linked to this story. They are former Rep. Dave McCurdy and Sen. James Inhofe (R-Okla.). McCurdy used to head the House Select Committee on Intelligence. At the time of the bombing he

Hamas, in Oklahoma City. These agents were capable of the Oklahoma City bombing. He also said the FBI had shown him film of these Hamas terrorists training in Oklahoma City.

McCurdy wasn't called by the grand jury although this was known to them. This is significant, considering McCurdy's prior position with the House Select Committee on Intelligence.

Finally, I recently learned—and I have talked to Inhofe personally about this—that his chief of staff was speaking directly to the FBI command post in Oklahoma City within hours after the bombing. Inhofe's chief of staff provided detailed information to two reporters whom I have talked to. The chief of staff stated that the Justice Department and FBI were upset. They were concerned that they were going to get in trouble because the reporters had learned that there was possibly a Middle Eastern connection and that there were other John Does involved in the bombing. This was reported to Inhofe's chief of staff by

want to cover up an Arab terrorist threat such as one coming from the Hamas underground or the Iraqis? After all, they've been looking for an excuse to go after Saddam Hussein for a long time.

Briley: There are two specific reasons why Clinton would personally want to be involved in the cover-up, and I have evidence that he was.

First of all, the Iraqi who is the prime suspect in this case was brought to the United States after the Gulf War by President Clinton, who personally intervened. This was over the objection of U.S. senators and POW family members. This Iraqi served as a Republican Guard for Saddam Hussein. These senators went to the president and tried to get this transfer stopped.

The second reason is that President Clinton's private investigator and long-time friend, Terry Lenzner, is directly connected to this bombing. Interestingly, Lenzner employs former FBI agents Larry Potts and Howard Shapiro, who were both involved in Ruby Ridge and Waco.

Lenzner was the personal investigator for the president starting in April of 1994. He contacted reporter Jayna Davis, at Channel 4 in Oklahoma City, and tried to interfere with her investigation. She would not cooperate with him and afterward they had all kinds of terrible disruptions. Lenzner employs a Pakistani who works in Tulsa, Oklahoma, who has been connected by other witnesses in this case to the Oklahoma City bombing. Lenzner is also a close personal friend of Hillary Clinton and worked with her under Sam Dash on the Watergate investigation.

Federal authorities are acting like they had foreknowledge of the bombing. They are acting like they are covering

Many don't believe either there is too much evidence
